FUTURE STUDIES

Training Course on "Statistical Business Registers"
under SESRIC Statistical Capacity Building Programme
April 1-2, 2024,
Online

Can DOĞAN – Head of Business Registers Group
candogan@tuik.gov.tr

Main Challenges and Future Studies

- EGR Access and EGs as statitical units from administrative sources
- Roadmap for KAU Integration is decided
  - Basic data source is PRODCOM survey
  - Production value is used as size variable
  - Prodcom code of products will be transformed into NACE codes
  - KAUs will not be seperate statistical unit but secondary activities of the enterprises
  - Operational rules proposed in the SBR manual is adopted
    - *Only certain enterprises will have KAUs*

Main Challenges and Future Studies

- NACE 2.1 Revision roadmap is under discussion
  - Units having 1*1 or n*1 to be transferred directly
  - Units having 1*n or n*m to be studied
    - *6 digit national codes& transition table are expected from Classification Department*
    - *Main Activity Survey and PRODCOM data to be used*
    - *Support from Revenue Administration or others*
    - *Using board names of the companies*
    - *Probabilistic assignments*

Main Challenges and Future Studies

- Web scraped data
- Machine learning algorithms for some variables

Thank you for your attention!
