Road Map for Unavailable SDG 5 Indicators

- Analysis of current situation:
  - determining the unavailable indicators

- Production Plan of unavailable indicators
  - by organising Official Statistics Programme Working Group Meetings
  - by inviting responsible and related ministries and stakeholders
  - producing via their Administrative registers or adding questions to the surveys
5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure

**Metadata:**
- The indicator is divided into two sub-indicators.
- Sub-indicator (a) is a measure of prevalence.
- Disaggregated by sex, people in the agricultural population who own or use the agricultural land measures its prevalence.
- The Formula: The number of people in the agricultural population with ownership or usage rights on agricultural lands / Total agricultural population * 100
- Sub-indicator (b) focuses on gender equality by measuring the extent to which women are disadvantaged in terms of ownership/use rights to agricultural land.
- The formula: Number of women in the agricultural population who have ownership or right of use on agricultural lands / Total within the agricultural population with ownership or right of use on agricultural land * 100).

5.a.1 (p). Distribution of agricultural land ownership at Farmer Registration System by sex

This indicator shows the gender distribution of the agricultural land owner population in the Farmer Registration System

Farmer Registration System

- the agricultural database where farmers are registered,
- created by the Ministry of Agriculture and Forestry. ÇKS
- ensures that agricultural supports can be monitored, audited, reported and questioned;
- a registration system that obliges farmer information to be collected in a central database in order to make accurate and healthy evaluations.
