Workshop on
"Generic Models of Statistical Production"

10-11 July 2023

## Albania Experience

Outline

- o Organisational Structure
- o Legal Basis
- o GSBPM Usage
- o GAMSO
- o Challenges and Opportunities

INSTAT
Republika e Shqipërisë
Instituti i Statistikave

Organisational Structure

ALBANIAN PARLIAMENT

GOVERNMENT

STATISTICAL COUNCIL

STATISTICAL UNITS

- Economic Units
- Household and resident
- Administrative data providers

OFFICIAL STATISTICS PRODUCERS

INSTAT
INSTITUTE OF STATISTICS

NATIONAL BANK

MINISTRY OF FINANCES AND ECONOMY

USERS

- Central & local public institutions
- Politicians
- Business representatives
- Science representatives
- Media
- Students
- International
- Embassies
- Non-profit organizations

PARTNERS

- Eurostat & other EU institutions
- NSI's
- Research institutions
- UN agencies
- International organizations

Legal Basis

Law no. 17/2018 "On official statistics"

Law no. 30/2022 "On approval of OSP 2021-2026" - a strategic document:
- o Development of NSS to fully support the EU integration process;
- o Fulfil user requests for official statistics;
- o Produce high quality official statistics, in accordance with international standards;
- o Expand the number of official statistics producers;
- o <u>Modernize statistical processes, methods, products and services;</u>
- o Increase the public trust on National Statistical System.

INSTAT

Challenges & Opportunities

o General Knowledge on the models and their usage

    o Move form piecemeal implementation to an holistic approach

o Increase awareness on the importance for the whole NSS

    o Implementation not only for INSTAT but for the entire NSS

o Important factor in the implementation of quality management
