Road Map for SDG Indicators

As of 29 December 2020, the document “Sustainable Development Indicators Roadmap for Türkiye” was prepared.

Currently, only Turkish version is available.

General content of the 205-page document:

- Information on Sustainable Development Roadmap need
- Analysis of current situation
- Production Plan of unavailable indicators
- Developing Regional, National and Sub-national indicators
- Reporting of global SDG indicators
- Planned studies
- Appendices

Road Map for Unavailable SDG 5 Indicators

- Analysis of current situation:
 - ☐ determining the unavailable indicators
- Production Plan of unavailable indicators
 - ☐ by organising Official Statistics Programme Working Group Meetings
 - ☐ by inviting responsible and related ministries and stakeholders
 - ☐ producing via their Administrative registers or adding questions to the surveys

Road Map for Proxy SDG 5 Indicator- 5.a.1

5.a.1 (a) Proportion of total agricultural population with ownership or secure rights over agricultural land, by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure

Metadata:

- The indicator is divided into two sub-indicators.
- Sub-indicator (a) is a measure of prevalence.
- Disaggregated by sex, people in the agricultural population who own or use the agricultural land measures its prevalence.
- The Formula= $\frac{\text{The number of people in the agricultural population with ownership or usage rights on agricultural lands}}{\text{Total agricultural population}} \times 100$
- Sub-indicator (b) focuses on gender equality by measuring the extent to which women are disadvantaged in terms of ownership/use rights to agricultural land.
- The formula: $\frac{\text{Number of women in the agricultural population who have ownership or right of use on agricultural lands}}{\text{Total within the agricultural population with ownership or right of use on agricultural land}} \times 100$.

Proxy of 5.a.1

5.a.1 (p). Distribution of agricultural land ownership at Farmer Registration System by sex

This indicator shows the gender distribution of the agricultural land owner population in the Farmer Registration System

Farmer Registration System

- the agricultural database where farmers are registered,
- created by the Ministry of Agriculture and Forestry. ÇKS
- ensures that agricultural supports can be monitored, audited, reported and questioned;
- a registration system that obliges farmer information to be collected in a central database in order to make accurate and healthy evaluations.

Thank you
Teşekkürler
