

# SBR MAINTENANCE IN MALAYSIA

RIYANTI BINTI SAARI  
METHODOLOGY & RESEARCH DIVISION

29-31 OKTOBER 2018

Technical Mission of SESRIC An Business And Registers,  
Brunei Darussalam

- to update the coverage and content of the SBR, taking into account continuity and stability rules, according to a well-defined calendar, and in as timely a fashion as the information sources allow.**
- to provide economic surveys with sampling frames that are accurate and as up to date as possible.**

# Keeping The EE Frame Up To Date

## Perfect frame

- A perfect frame should reflect the real business world in term of structures; classifications; linkages; data contents; availability status and contact information

## Applying GSBPM

- Balance the need for accuracy, timeliness and stability of the registered data
- Minimise the effects on time series of shocks arising from the updating process

## Operational Control Information Module- 1 of the module in NEWSS

- These assist the field enumerators at state offices to access and provide survey feedback in real time which it improves the timeliness and the efficiency of the updates.

## Integrated Listing Module (InLis) through Household Module

- To accommodate the listing process for establishment/enterprises using maps beside the normal exercise for household

The maintenance strategy should take into account the following aspects:

## *Sources of information*

- *Administrative sources, feedback from surveys and SBR improvement surveys - and rules for dealing with conflicting information;*

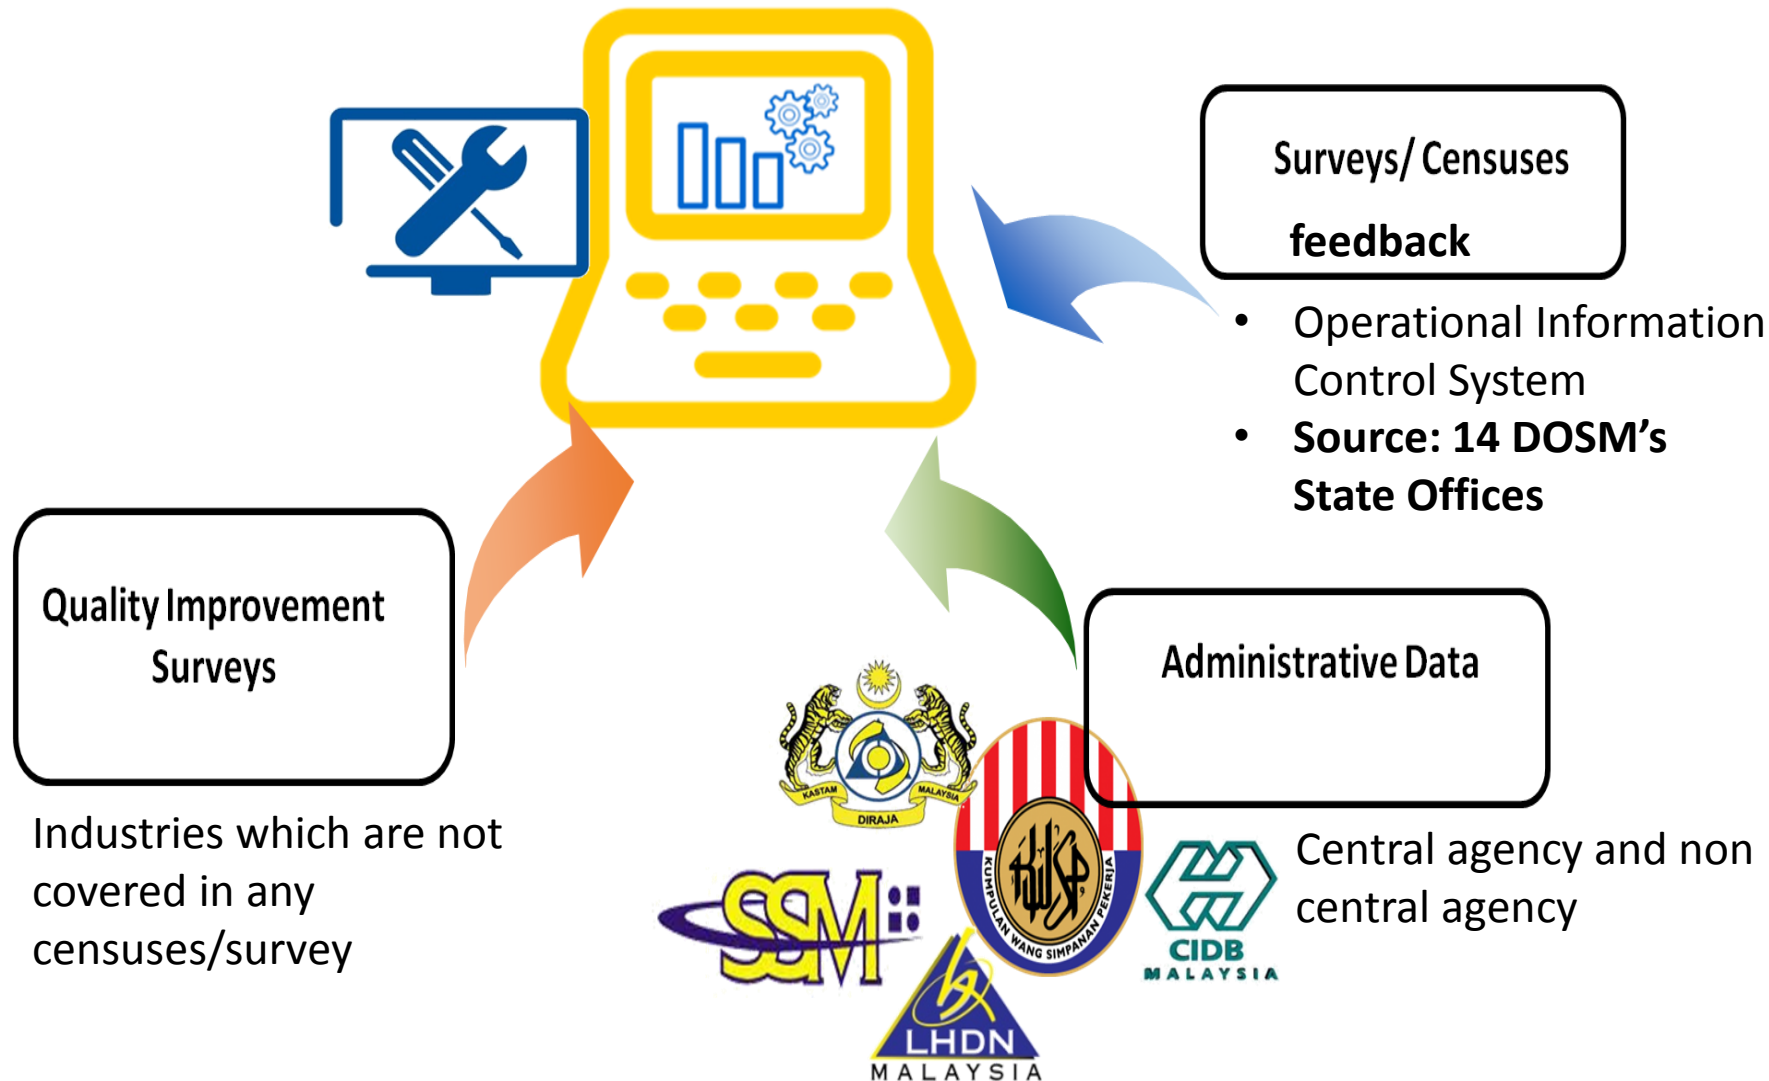

## *Time dimension*

- *Timing of the updates, the need for continuity and stability rules, and use of the historical register.*

## *Maintenance groups*

- *Into which statistical units in the SBR are divided for efficiency and cost effectiveness of maintenance procedures;*

# SOURCES

## Administrative Sources

- Central agency (> 60 agencies) such as Companies Commission of Malaysia (CCM), Employees Provident Funds (EPF) etc.
- Non-central source is controlled at the states level such as local authorities/councils.

## Statistical sources

- Updating based on censuses or surveys through a Operation Control Information Module in ISSF ( NEWSS)
- Source : 14 DOSM's State Offices

## MSBR Quality Improvement Survey

- This Survey is conducted in order to gather information from the establishment that are not selected during any censuses or survey by DOSM.
- Conduct annually

Conducting verification

Identifying business prospects  
(potential establishments for inclusion  
on the MSBR)

Updating records from survey feedback

Assigning of classification codes

Cross-checking data from sources  
against the existing MSBR

Taking and storing snapshots **for frozen  
frame**

## **Administrative Sources**

- Received from related agencies
- With various format

## **Manual Checking**

- Identify unique ID
- Standardized the format of unique ID

## **Completeness Checking**

- Address
- Activity Classification

### **Complete: Integrated Statistical System**

- Imported in ISS
- Automated matching & coding

### **Incomplete (no activity classification):**

Screening Survey

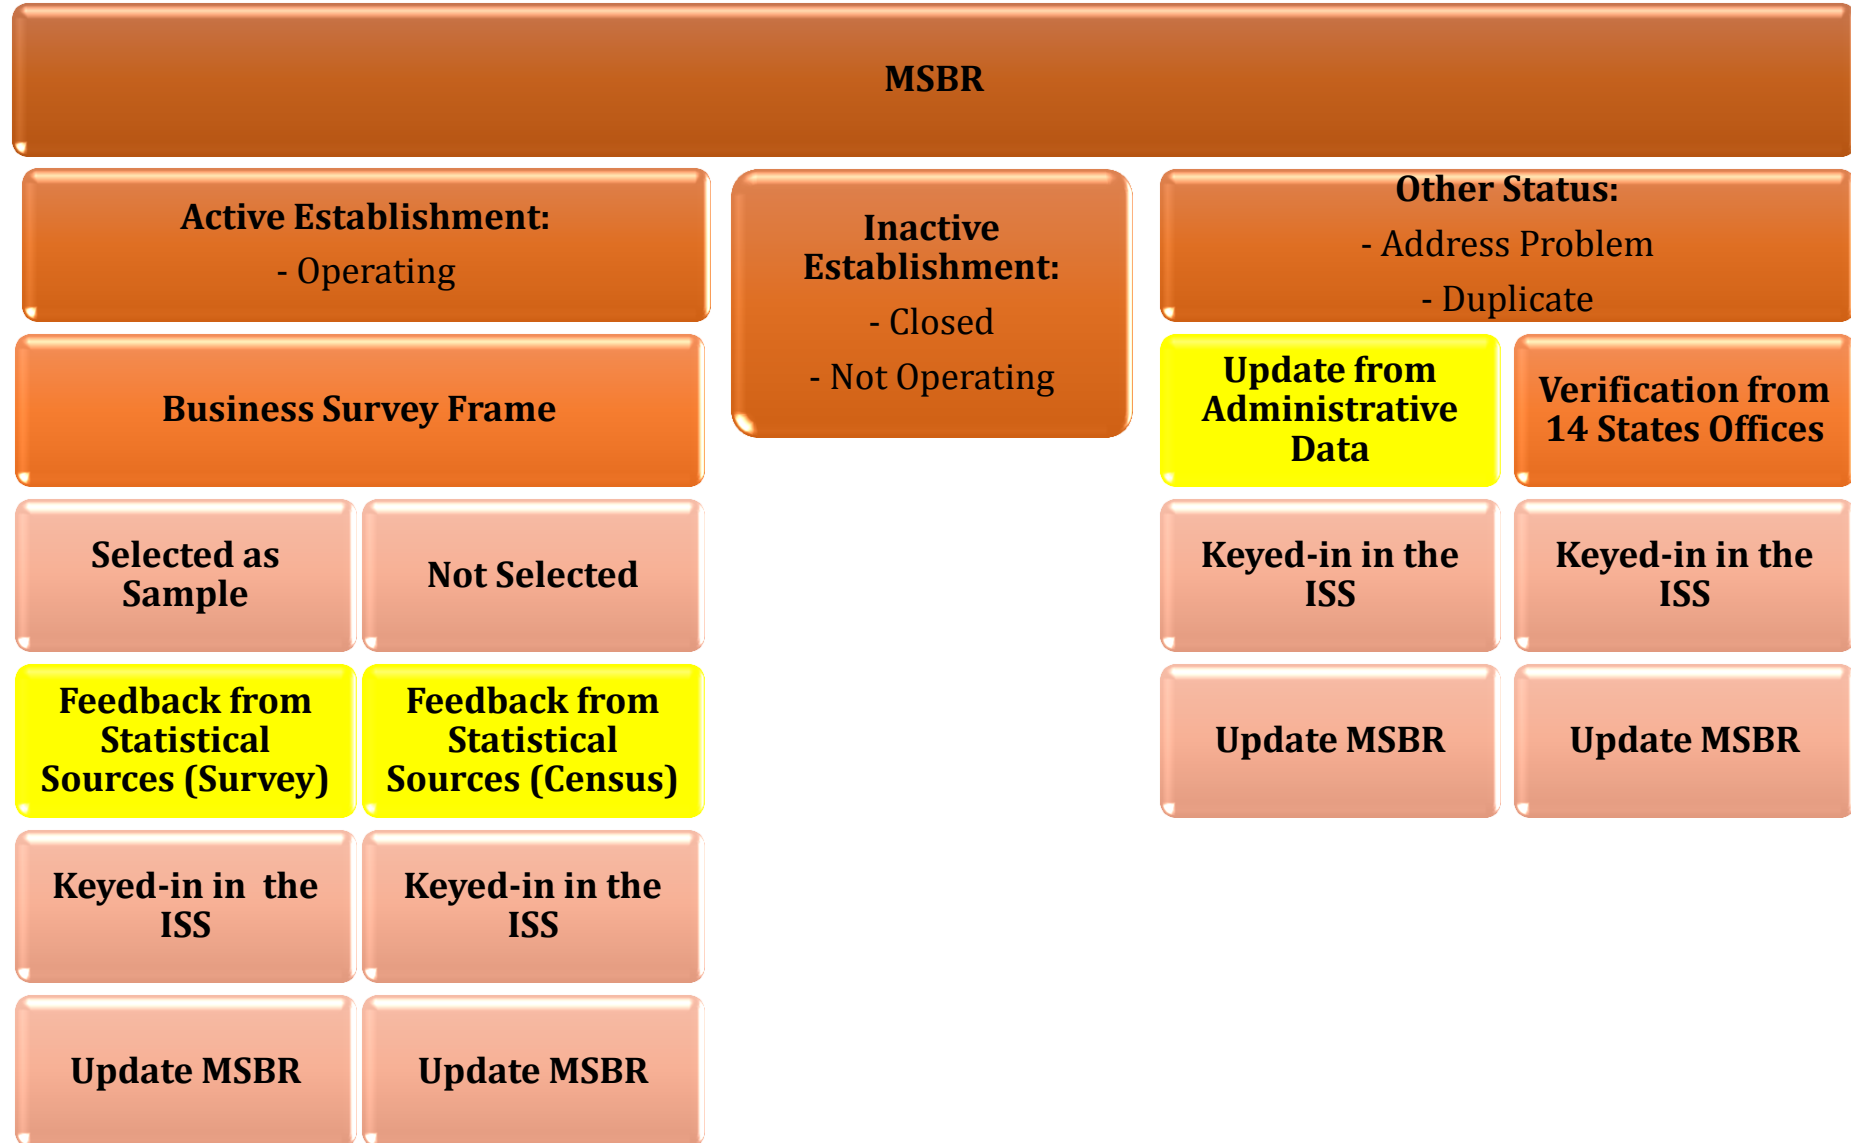

### **Malaysia Statistical Business Register (MSBR)**

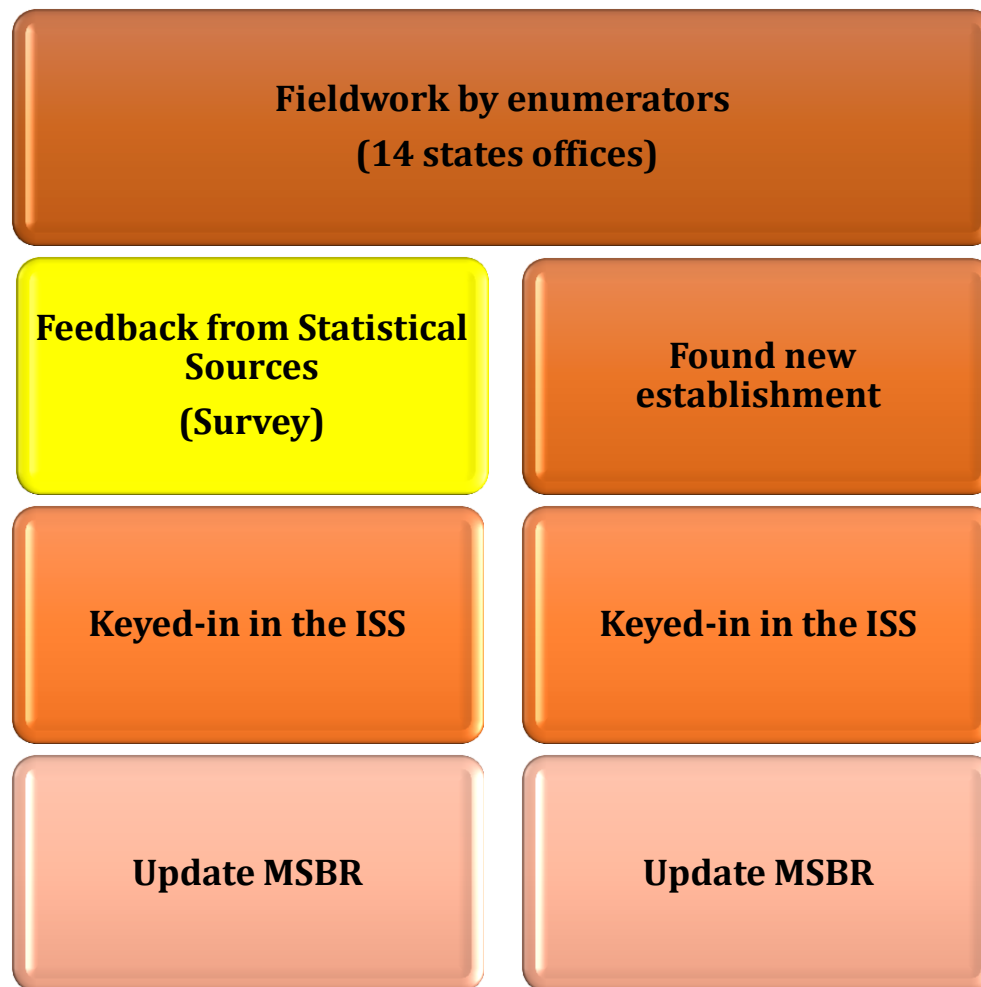

Matched : Update latest info  
Unmatched : Consider as new establishment

### **Feedback from Screening Survey:**

- Keyed-in in the ISS

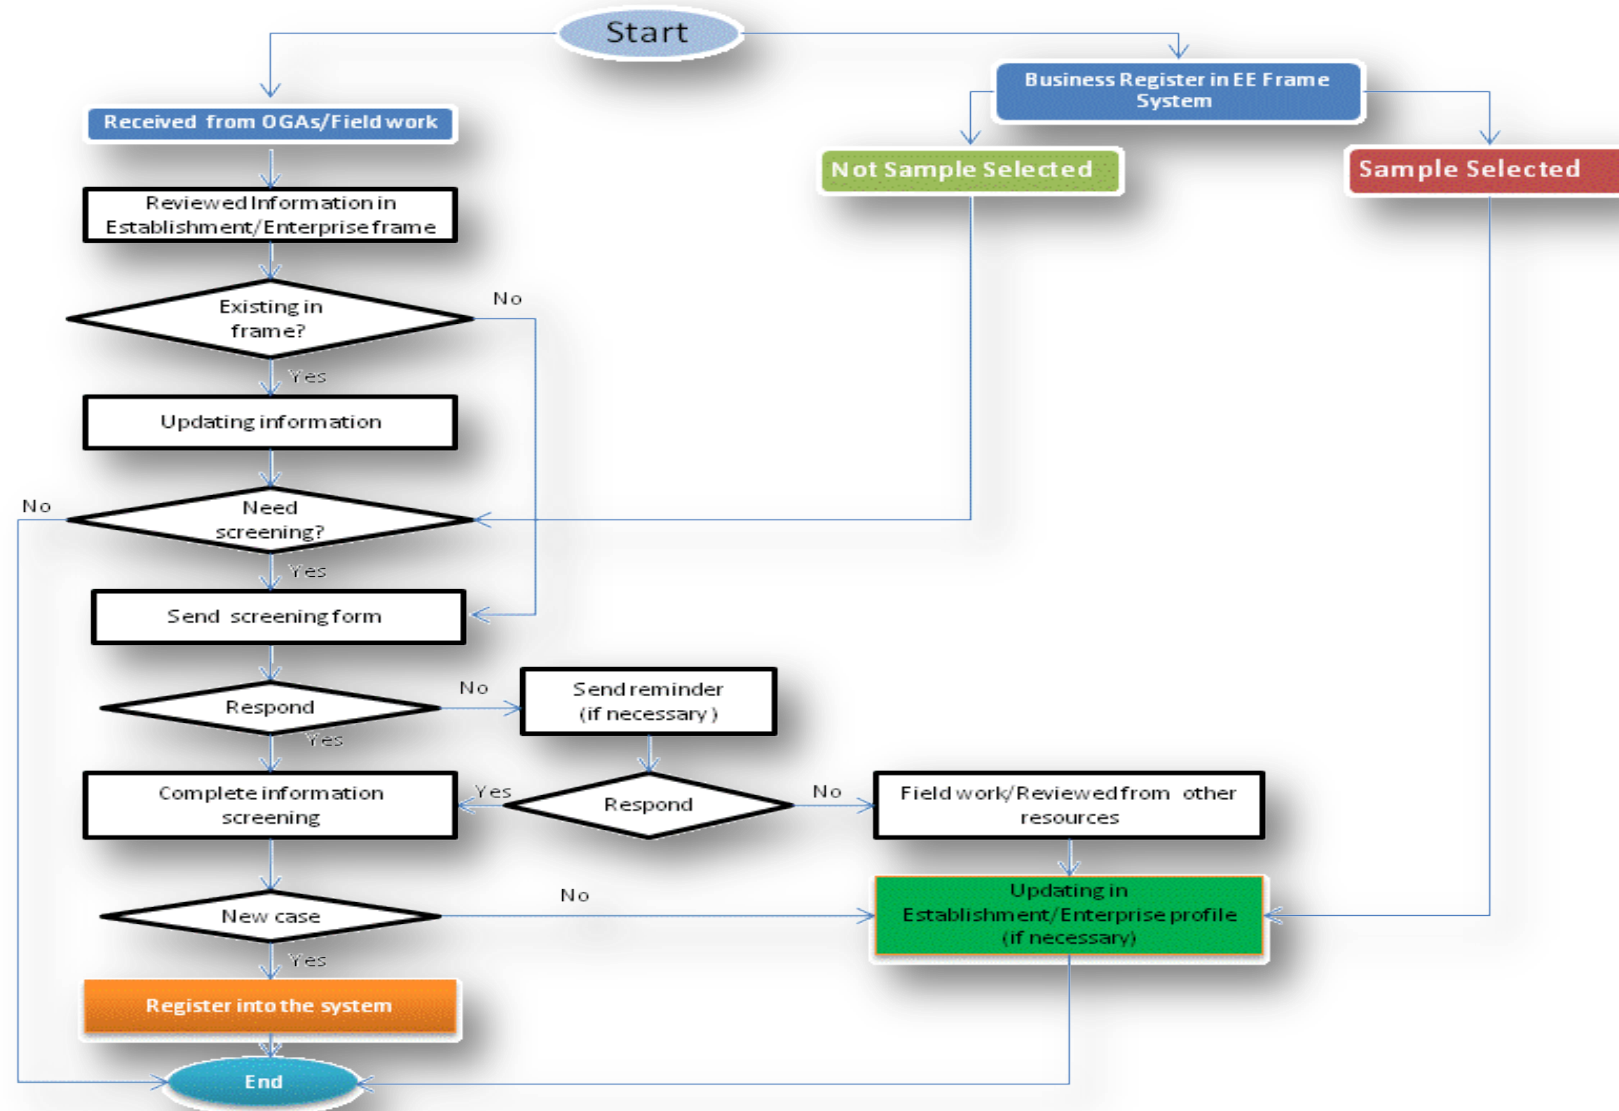

# PROCEDURE

**As at April 2018:  
1,177,2561  
active establishments**

# DIAGRAM ON UPDATE PROCEDURE

# System Maintenance : Updating Records

## Main screen of the system

The image shows the login interface of the National Enterprise-Wide Statistical Systems. It features a yellow background with a globe icon and a red arrow pointing upwards. The text 'National Enterprise-Wide Statistical Systems' is displayed in blue. Below this, the text 'Sila masukkan ID Pengguna dan Kata Laluan.' is shown. There are two input fields: 'ID Pengguna' and 'Kata Laluan'. Below the input fields are two buttons: 'Log Masuk' and 'Reset'. At the bottom, there is a link 'Lupa Kata Laluan'.

- In the NEWSS platform the BR is integrated with the collection through Operational Control Information (MKO) module.
- The first benefit is the accessibility to most recent information in BR by the enumerators.
- increased the efficiency and timeliness of the updates.
