FOREWORD

Since its inception in 1987, the Ankara Centre has been deploying strenuous efforts to form a collection of comprehensive and up-to-date statistics on the Member Countries of the Organization of Islamic Conference (OIC). The content of this database is regularly updated and enriched essentially on the basis of information collected from the national statistical sources. However, in some instances, it still has to recourse to the international sources for missing data. In such cases, special care is exercised in choosing the most reliable and updated sources. Recently, the Centre is working on a new system through which Member Countries will be able to provide their statistical data and information online.

To enhance the flow of information within the OIC countries, the Centre has been publishing various statistical publications. These include the *Statistical Yearbook of the OIC Countries*, *Basic Facts and Figures on OIC Member Countries* and *Information Series on OIC Countries*.

This present *Basic Facts and Figures on OIC Member Countries (2006)* brings together data on a basic set of socio-economic indicators for all the fifty-seven Member Countries and for the years 2002, 2003, 2004 and 2005. Since data on some of the indicators are not available for some of the countries, the number of indicators included in the tables are adjusted according to data availability for individual countries. Therefore, for some countries, the tables include only a subset of indicators.

We hope that users will find this handy booklet useful and look forward to receiving their feedback to help us improve its quality as well as that of all our other statistical publications.

Dr. Savaş Alpaya
Director General

DEFINITIONS

Adult Literacy Rate

Percentage of adults aged 15 and above who can, with understanding, read and write a short simple statement about their everyday life.

Balance of Payments: Current account

Current account balance is the sum of net exports of goods, services, net income and net current transfers.

Consumer Price Index

Changes in the cost of acquiring a fixed basket of goods and services by the average consumer.

Energy Consumption

Includes consumption of commercial energy derived from primary soft fuels; liquids such as petroleum products; gasses such as natural gas; coke oven gas and primary electricity; plus net imports and changes in the stocks of secondary fuels, net imports and changes in the stocks of grassworks.

External Public Debt

Consists of public and publicly guaranteed long-term debt, private non-guaranteed long-term debt, the use of IMF credit and short-term debt.

Foreign Direct Investment

Foreign Direct Investment is defined as investment that is made to acquire a lasting management interest in an enterprise operating in a country other than

that of the investor, the investor's purpose being an effective voice in management of the enterprise. It is the sum of equity capital, reinvestment of

reanings, other long-term capital, and short-term capital as shown in the balance of payments.

GDP at Current market Prices

At purchaser prices, it is the sum of the gross value added by all resident and non-resident producers in the economy plus indirect taxes and minus any subsidies not included in the value of the products.

International Tourist Arrivals

Number of persons visiting a country other than their usual place of residence for any reason other than following an occupation remunerated from within the country visited.

International Tourism Receipts

This covers all tourism receipts made by visitors from abroad (inbound) or lodging, food and drinks, fuel, transportation in the country, entertainment, shopping, etc. This concept includes receipts generated by overnight as well as same-day visitors. It excludes, however, the receipts related to international transport made by non-resident visitors (for instance ticket receipts from foreigners travelling with a national company), which are classified under a separate category called *International Fare Receipts*.

Life Expectancy at Birth

Number of years a new-born infant would live if prevailing patterns of mortality at the time of birth was to stay the same throughout its life.

Share of Agriculture in GDP

Agriculture corresponds to ISIC divisions 1-5 and includes forestry and fishing.

Share of Industry in GDP

Industry comprises value added in mining, manufacturing, construction, electricity, water and gas (ISIC divisions 10-45).

Total Exports

Data show the f.o.b. value of goods provided to the rest of the world valued in U.S. dollar.

Total Foreign Exchange Reserves

Holding by monetary authorities of claims on foreigners in the form of bank deposits.

Total Imports

Data shown the c.i.f. value of goods purchased from the rest of the world valued in U.S. dollar.

Total Midyear Population

It is based on the de facto definition of population, which counts all residents regardless of legal status or citizenship. Refugees not permanently settled in the country of asylum are generally considered part of the population of the country of origin.

Total Unemployment

Total number of persons without work, but available for and seeking employment. The definition may change from one country to another.

Urban Population

Share of the total population living in areas defined as urban in each country.
