# FOREWORD

Since its inception in 1978, the Statistical, Economic and Social Research and Training Centre for Islamic Countries (SESRIC) has been making serious efforts and developing various methodologies for collating, processing and disseminating comprehensive and up-to-date socio-economic statistics and information on and for the utilisation of the Member Countries of the Organisation of the Islamic Conference (OIC). In so doing, the Centre devotes a large portion of its resources to providing the necessary statistical data and background information that would enhance the level and quality of technical cooperation activities among the OIC Member Countries. The statistical data and information collected by the Centre are processed and disseminated to all relevant institutions and interested individuals in the member countries and elsewhere, both in hard copies and in electronic format through the Centre's web site.

Among other volumes and series of statistical publications of the Centre, the *Basic Facts and Figures on OIC Member Countries* provides data on a set of major socio-economic indicators for all the fifty-seven OIC Member Countries. The present issue of *Basic Facts and Figures on OIC Member Countries 2007-2008* has been prepared in a new format, which includes both tabular and graphical illustration on selected basic socio-economic indicators. Up to the year 2006, the format of the publication was merely a tabular one, and time series data for the selected basic indicators were presented for the latest five years in the tables. The recent publication presents a two-page statistical profile for each member country which includes demographic, social and economic overview using the most recent year for which the relevant data are available. These profiles include selected indicators such as growth, structure of economy, labour force, trade, education, health, communication and some other vital statistical indicators.

The data in this publication are mainly obtained from the Centre's main database "BASEIND", which includes comprehensive and up-to-date time series data on various socio-economic indicators for the fifty-seven OIC Member Countries. The BASEIND presents the most comprehensive statistical database on the OIC Member Countries, and it also facilitates the online data collection from the Member Countries to minimize the burden of data provision process. Furthermore, the Centre uses innovative ways to make the experiences of the users of its BASEIND database as comfortable as possible through, especially, the use of cutting-edge visual techniques.

The *Basic Facts and Figures on OIC Member Countries 2007-2008* will be a valuable contribution to the Centre's efforts in providing the necessary and up-to-date information and knowledge to make the Member Countries better informed of each other's capacities and needs as well as challenges and potentials towards a highly effective cooperation and collaboration.

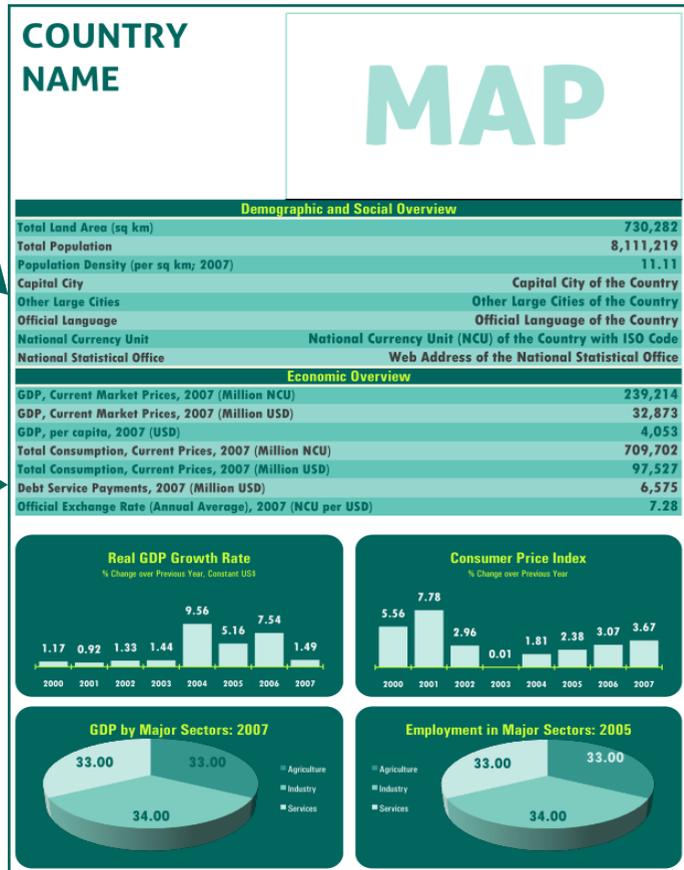

**Dr. Savaş Alpay**  
**Director General**

# TECHNICAL NOTES

Country Profiles display the name of the OIC Member Country accompanied by a map showing the location of the Country.

The *Demographic, Social and Economic Overview* tables display data on the most fundamental indicators for the specific country. If there is no data available for a given indicator, "—" symbol is used in the respective field.

For the *Debt Service Payments* field; a "—" symbol has been used for the countries that currently do not have a financial agreement with the IMF.

The data for *Real GDP Growth Rate* and *Consumer Price Index* are displayed as column charts in the first row and the data for *GDP by Major Sectors* and *Employment in Major Sectors* are displayed as pie charts in the second row. If the *GDP by Major Sectors* or *Employment in Major Sectors* data for a country is not available, the respective pie chart is not displayed.

# TECHNICAL NOTES

The definitions of the displayed indicators are presented after the Country profiles.

The second page of the profile displays the name of the OIC Member Country accompanied by the national flag.

The Labour Force, Trade, Education, Health and Vital Statistics tables display data on relevant indicators for the specific country. If there is no data available for a given indicator, "..." symbol is used in the respective field.

The data for Communication (per 100 people) and Life Expectancy at Birth (Years) are displayed as bar and column charts, respectively. If the majority of data for a country is not available, the chart is not displayed.

## Life Expectancy at Birth (Years)

# DEFINITIONS

# DEFINITIONS

## DEMOGRAPHIC AND SOCIAL OVERVIEW

| INDICATOR          | UNIT      | DEFINITION  |
|--------------------|-----------|---|
| Total Population   | Number    | Total population is based on the de facto definition of population, which counts all residents regardless of legal status or citizenship—except for refugees not permanently settled in the country of asylum, who are generally considered part of the population. |
| Population Density | per sq km | Population density is midyear population divided by land area in square kilometers. Population is based on the de facto definition of population, which counts all residents regardless of legal status or citizenship—except for refugees.                         |

## ECONOMIC OVERVIEW

| INDICATOR                         | UNIT                        | DEFINITION  |
|-----------------------------------|-----------------------------|---|
| GDP, Current Market Prices        | Million NCU                 | Gross domestic product (GDP) at current prices is GDP at prices of the current reporting period. Also known as nominal GDP. Expressed in National Currency Units.   |
| GDP, Current Market Prices        | Million USD                 | Gross domestic product (GDP) at current prices is GDP at prices of the current reporting period. Also known as nominal GDP. Expressed in USD.   |
| GDP, per capita                   | USD                         | GDP per head calculated as the aggregate of production (GDP) divided by the population size. Expressed in USD.  |
| Total Consumption, Current Prices | Million NCU                 | Final consumption expenditure consists of household final consumption expenditure, government final consumption expenditure and final consumption expenditure of NPISH's. Expressed in Current Prices in National Currency Units. |
| Total Consumption, Current Prices | Million USD                 | Final consumption expenditure consists of household final consumption expenditure, government final consumption expenditure and final consumption expenditure of NPISH's. Expressed in Current Prices in USD                      |
| Debt Service Payments             | Million USD                 | It is the sum of principal repayments and interest actually paid in foreign currency, goods, or services on long-term debt, interest paid on short-term debt, and repayments (repurchases and charges) to the IMF.                |
| Official Exchange Rate            | Period Average; NCU per USD | Official exchange rate refers to the exchange rate determined by national authorities or to the rate determined in the legally sanctioned exchange market. It is calculated as an annual average based on monthly averages.       |
| Real GDP Growth Rate              | Percentage                  | The average percentage change of GDP (at constant 1990 prices) over the previous year.  |
| Consumer Price Index (2000 = 100) | Percentage                  | An indicator of inflation that reflects changes in the cost of acquiring a fixed basket of goods and services by the average consumer expressed as the average percentage change over the previous year.                          |

# DEFINITIONS

## GDP by MAJOR SECTORS

| INDICATOR                  | UNIT       | DEFINITION  |
|----------------------------|------------|---|
| Agriculture , Share in GDP | Percentage | Agriculture corresponds to ISIC divisions 1-5 and includes forestry, hunting, and fishing, as well as cultivation of crops and livestock production.  |
| Industry , Share in GDP    | Percentage | Industry corresponds to ISIC divisions 10-45 and includes manufacturing (ISIC divisions 15-37). It comprises value added in mining, manufacturing, construction, electricity, water, and gas.   |
| Services, Share in GDP     | Percentage | Services correspond to ISIC divisions 50-99 and they include value added in wholesale and retail trade (including hotels and restaurants), transport, and government, financial, professional, and personal services such as education, health care, and real estate. |

## EMPLOYMENT IN MAJOR SECTORS

| INDICATOR                           | UNIT       | DEFINITION   |
|-------------------------------------|------------|--|
| Share of Labor Force in Agriculture | Percentage | Employees are people who work for a public or private employer and receive remuneration in wages, salary, commission, tips, piece rates, or pay in kind. Agriculture corresponds to division 1 (ISIC revision 2) or tabulation categories A and B (ISIC revision). |
| Share of Labor Force in Industry    | Percentage | Employees are people who work for a public or private employer and receive remuneration in wages, salary, commission, tips, piece rates, or pay in kind. Industry corresponds to divisions 2-5 (ISIC revision 2) or tabulation categories C-F (ISIC revision 3)    |
| Share of Labor Force in Services    | Percentage | Employees are people who work for a public or private employer and receive remuneration in wages, salary, commission, tips, piece rates, or pay in kind. Services correspond to divisions 6-9 (ISIC revision 2) or tabulation categories G-P (ISIC revision 3)     |

## LABOUR FORCE

| INDICATOR                              | UNIT       | DEFINITION   |
|--|------------|--|
| Labor Force Participation Rate, Female | Percentage | Female labor force participation rate is the proportion of the female population ages 15-64 that is economically active: all people who supply labor for the production of goods and services during a specified period. |
| Labor Force Participation Rate, Male   | Percentage | Male labor force participation rate is the proportion of the male population ages 15-64 that is economically active: all people who supply labor for the production of goods and services during a specified period.     |
| Labor Force Participation Rate, Total  | Percentage | Total labor force participation rate is the proportion of the population ages 15-64 that is economically active: all people who supply labor for the production of goods and services during a specified period.         |

# DEFINITIONS

| TRADE                                |             |   |
|--------------------------------------|-------------|---|
| INDICATOR                            | UNIT        | DEFINITION  |
| Total Merchandise Exports to World   | Million USD | <p>Merchandise exports show the f.o.b. value of goods provided to the rest of the world valued in current U.S. dollars.</p> <p>Merchandise exports consist of (i) food exports (SITC section 0, 1, and 4 plus division 22), (ii) exports of agricultural raw materials (SITC section 2 minus divisions 22, 27 and 28), (iii) fuels exports (SITC section 3), (iv) exports of ores and metals (SITC divisions 27, 28, and 68), and (v) manufactures export (SITC sections 5, 6, 7, and 8 minus division 68).</p>   |
| Total Merchandise Imports from World | Million USD | <p>Merchandise imports show the f.o.b. value of goods received from the rest of the world valued in current U.S. dollars.</p> <p>Merchandise exports consist of (i) food exports (SITC section 0, 1, and 4 plus division 22), (ii) exports of agricultural raw materials (SITC section 2 minus divisions 22, 27 and 28), (iii) fuels exports (SITC section 3), (iv) exports of ores and metals (SITC divisions 27, 28, and 68), and (v) manufactures export (SITC sections 5, 6, 7, and 8 minus division 68).</p> |
| Intra - OIC Merchandise Exports      | Million USD | Merchandise exports of a country to the OIC member countries, expressed in current USD.   |
| Intra-OIC Merchandise Imports        | Million USD | Merchandise imports of a country from the OIC member countries, expressed in current USD.   |

| EDUCATION                                |            |   |
|--|------------|---|
| INDICATOR                                | UNIT       | DEFINITION  |
| Adult Literacy Rate, Female              | Percentage | Percentage of the female population of 15 years and older that is able to read, write and thus to fully participate in the wider society.   |
| Adult Literacy Rate, Male                | Percentage | Percentage of the male population of 15 years and older that is able to read, write and thus to fully participate in the wider society.   |
| Adult Literacy Rate, Total               | Percentage | Percentage of the population of 15 years and older that is able to read, write and thus to fully participate in the wider society.  |
| Public Education Expenditures (% of GDP) | Percentage | Current and capital expenditures on education by local, regional and national governments, including municipalities (household contributions are excluded), expressed as a percentage of the GDP. |
| Primary School Enrolment Ratio, Net      | Percentage | Ratio of all pupils of the theoretical school-age group for primary schools, expressed as a percentage of the total population in that age-group.   |
| Secondary School Enrolment Ratio, Net    | Percentage | Ratio of all pupils of the theoretical school-age group for secondary schools, expressed as a percentage of the total population in that age-group.   |

# DEFINITIONS

| HEALTH                                |            |  |
|---------------------------------------|------------|--|
| INDICATOR                             | UNIT       | DEFINITION   |
| Public Health Expenditures (% of GDP) | Percentage | Public expenditure on health consists of recurrent and capital spending from government (central and local) budgets, external borrowings and grants (including donations from international agencies and nongovernmental organizations), and social (or compulsory) health insurance funds. For countries with a July to June fiscal year, the beginning year is used as the reporting year. |
| Health Expenditures per Person        | USD        | It is calculated as the health expenditure divided by the population size. Expressed in USD.   |

| VITAL STATISTICS                 |       |  |
|----------------------------------|-------|--|
| INDICATOR                        | UNIT  | DEFINITION   |
| Crude Birth Rate (per 1000)      | Ratio | Crude birth rate indicates the number of live births occurring during the year, per 1,000 population estimated at midyear.   |
| Crude Death Rate (per 1000)      | Ratio | Crude death rate indicates the number of deaths occurring during the year, per 1,000 population estimated at midyear.  |
| Infant Mortality Rate (per 1000) | Ratio | Under-five mortality rate is the probability of a child born in a specific year or period dying before reaching the age of five, if subject to age-specific mortality rates of that period. Infant mortality rate is the probability of a child born in a specific year or period dying before reaching the age of one, if subject to age-specific mortality rates of that period. |

| COMMUNICATION  |       |   |
|--|-------|---|
| INDICATOR  | UNIT  | DEFINITION  |
| Main Telephone Lines in Operation per 100 people     | Ratio | It is number of telephone mainlines per 100 people. Telephone mainlines are fixed telephone lines connecting a subscriber to the telephone exchange equipment.            |
| Cellular Mobile Telephone Subscribers per 100 people | Ratio | It is number of mobile telephone subscribers per 100 people. Mobile telephone subscribers are subscribers to a public mobile telephone service using cellular technology. |
| Personal Computers per 100 people                    | Ratio | It is number of personal computer per 100 people. Personal computers are self-contained computers designed to be used by a single individual.                             |
| Internet Users per 100 people                        | Ratio | It is number of internet users per 100 people. Internet users are people with access to the worldwide network.  |
| Internet Subscribers per 100 people                  | Ratio | It is the number of internet subscribers per 100 people. Internet subscribers are subscribers to the worldwide network.   |

# DEFINITIONS

| LIFE EXPECTANCY                  |       |  |
|----------------------------------|-------|--|
| INDICATOR                        | UNIT  | DEFINITION   |
| Life Expectancy at Birth, Female | Years | Female life expectancy at birth indicates the number of years a newborn female infant would live if prevailing patterns of mortality at the time of its birth were to stay the same throughout its life. |
| Life Expectancy at Birth, Male   | Years | Male life expectancy at birth indicates the number of years a newborn male infant would live if prevailing patterns of mortality at the time of its birth were to stay the same throughout its life.     |
| Life Expectancy at Birth, Total  | Years | Life expectancy at birth indicates the number of years a newborn infant would live if prevailing patterns of mortality at the time of its birth were to stay the same throughout its life.               |
