SDG 6 INDICATORS OF YEMEN
OVERVIEW OF SDG 6 INDICATORS

ENSURE AVAILABILITY AND SUSTAINABLE MANAGEMENT OF WATER AND SANITATION FOR ALL

It comprises 11 indicators and 8 targets, in accordance with the Global Indicator Framework for Sustainable Development Goals. One of these goals is scheduled to be achieved by 2020, i.e. Target 6-6 “protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes".
## TRACKING PROGRESS ON SDG 6 INDICATORS IN YEMEN 2020

TRACKING PROGRESS ON SDG 6 INDICATORS IN YEMEN 2020

WATER MANAGEMENT
DEGREE OF INTEGRATED WATER RESOURCES MANAGEMENT (0-100) (IWRM) IN YEMEN (SDG INDICATOR 6.5.1)

- Enabling environment, 50
- Financing, 12
- Institutions and participation, 47
- Management instruments, 36
- SDG indicator 6.5.1, 36
THE AMOUNT OF WATER- AND SANITATION-RELATED OFFICIAL DEVELOPMENT ASSISTANCE DISBURSED TO YEMEN (SDG INDICATOR 6.A.1) (MILLION USD)

2019: 101 million USD
2018: 53 million USD

It worth to be mentioned, however, that the amount of official development assistance for Yemen with relation to water and sanitation is very low, only US $ 101 million in 2019, compared to US $ 522.18 million for Jordan, US $ 208.9 million for Iraq and US $ 102.9 million for Palestine.
SDG 6 CHALLENGES

Several challenges and difficulties stand in the way of achieving this goal, including the war-related material damage sustained by water supply and sanitation networks, high rehabilitation costs, and because most water networks in vulnerable areas rely heavily on humanitarian assistance to secure fuel and other services.
ROAD MAP FOR UNAVAILABLE SDG 6 INDICATORS IN YEMEN

- **Wastewater**
  
  % of the household wastewater in Yemen are safely treated (SDG indicator 6.3.1) 2005

- **Water quality**
  
  % of water bodies covered by reporting in Yemen have a good ambient water quality (SDG indicator 6.3.2) 2005

- **Efficiency**
  
  value added from the use of water by people and the economy in Yemen (SDG indicator 6.4.1 on water-use efficiency)
ROAD MAP FOR UNAVAILABLE SDG 6 INDICATORS IN YEMEN

- Water stress
  % of the renewable water resources in Yemen are being withdrawn, after taking into account environmental flow requirements (SDG indicator 6.4.2 on level of water stress) 2014

- Transboundary
  % of transboundary basin area in Yemen have an operational agreement for water cooperation (SDG indicator 6.5.2)
ROAD MAP FOR UNAVAILABLE SDG 6 INDICATORS IN YEMEN

- Ecosystems

% of local administrative units with established and operational policies and procedures for participation of local communities in water and sanitation management (SDG indicator 6.b.1)
RECOMMENDATION

- Funding the Central Statistical Organization to implement statistical surveys to fill the gap in the indicators of the SDGs

- Strengthening the national statistical capacities to generate high-quality and reliable data, disaggregated by sex, age group, geographical location, income level, disability, or other characteristics of importance in national contexts.
THANK YOU
