

## SESRIC WEBINAR SERIES ON STATISTICAL EXPERIENCE SHARING

### “MOTOR VEHICLES, TRAFFIC VOLUME & ROAD TRAFFIC ACCIDENTS STATISTICS”

3 June 2021 Time: 13:30 - 15:30 (Ankara time – UTC +3)

Registration Link: <https://erp.sesric.org/events/Webinar-Motor-Vehicles/Apply>

## Background and Objectives

The importance of transportation increases more than ever as it is an indispensable factor in enabling communication, trade and other forms of exchange among people. Thus, transportation plays an important part in economic growth and globalization. Gaining an understanding of where, when, and how people travel and how, when, and where commodities are transported is challenging given the diversity across the communities of all sizes, and this is only the first step in planning transportation infrastructure and services. In this regard, statistics on components of transportation, particularly motor vehicles, traffic volume and safety including road traffic accidents are critically important for countries to design and develop efficient transportation systems and infrastructures within a coherent and comprehensive policy framework while ensuring linkages with other policy areas and overall national development objectives and strategies.

Against this background, SESRIC Webinar Series on Statistical Experience Sharing aims to bring together the National Statistics Offices (NSOs) of OIC countries and statistical units of the relevant international agencies to provide a platform for sharing their experiences on statistical themes of mutual interest. In this connection, SESRIC will conduct a webinar jointly with the Turkish Statistical Institute (TurkStat) on their experience in Motor Vehicles, Traffic Volume and Road Traffic Accidents Statistics with the participation of NSOs of OIC countries and the Statistics Division of United Nations Economic and Social Commission for Western Asia (UNESCWA). *To enrich the content and discussions of the webinar, interested OIC countries are also invited to share their experiences during the Webinar.*

This webinar will cover the following topics:

- Road Motor Vehicle Statistics;
- Road Traffic Accident Statistics;
- Road Vehicle-Kilometre Statistics; and
- Importance of Transportation Statistics in SDGs.

## Format

- Around 2 hours of webinar via Zoom with presentations. The participants are recommended to create a Zoom account by visiting <https://zoom.us/signup> in advance of the webinar.
- The webinar will be conducted in **English** only.
- The webinar will be open to NSOs of OIC member countries interested in the subject. **In this connection, the participants who wish to make a presentation should send their files to [statistics@sesric.org](mailto:statistics@sesric.org) by 1 June 2021.**
