

# Draft Final Report of the OIC-StatCom Technical Committee of Experts on “Executive Work Plan for the Short, Medium and Long Term Implementation of the OIC-StatCom Strategic Vision”

---

**Lead Country:** Indonesia

**Members:** Azerbaijan, Benin, Côte d'Ivoire, Egypt, Guinea, Iran, Iraq, Jordan, Mali, Morocco, Nigeria, Pakistan, Palestine, Qatar, Senegal, Sierra Leone, Somalia, Sudan, Togo, Tunisia, Turkey, IDB, and SESRIC.

## 1 Background

The Second Session of the Organisation of Islamic Cooperation Statistical Commission (OIC-StatCom), co-organised by the Statistical, Economic and Social Research and Training Centre for Islamic Countries (SESRIC) and the Islamic Development Bank (IDB) on 13-15 May 2012 in Izmir, Turkey, endorsed the OIC-StatCom Strategic Vision Document prepared by the Working Group on “Development of a Strategic Vision Document for the OIC-StatCom” to guide its future activities. The Commission also decided the establishment of a Technical Committee of Experts (TCE) to develop an “Executive Work Plan (EWP) for the Short, Medium and Long Term Implementation of the OIC-StatCom Strategic Vision”.

## 2 Objective

This TCE has been set up to prepare an executive work plan for the short, medium and long term implementation of the OIC-StatCom Strategic Vision.

## 3 Tasks

This TCE is expected to carry out the following tasks before and during the preparation of the Draft EWP. In this respect, the OIC-StatCom Secretariat has:

- Announced the establishment of the TCE to the Member States and asked them to assign a focal point if they wished to participate in the activities of the TCE;
- Circulated the Project Planning Matrix (PPM) to the TCE members, which would set the basis for the preparation of the EWP;
- Circulated the Phase-II survey due to low response rate for the PPM; and
- Collected the feedback of the TCE members to prepare the draft EWP based on the Phase-II survey in consultation with the Lead Country before its submission to the Third Session of OIC-StatCom.

The responding TCE members have:

- Identified the time frames for the activities to be implemented by the OIC-StatCom Secretariat in line with the OIC-StatCom Strategic Vision Document.
- Submitted their feedback for the PPM and Phase-II survey by considering (i) for the PPM, the objectives/goals that OIC-StatCom Strategic Vision tries to accomplish, inputs needed, success measures to verify the outputs, and external conditions required to reach objectives/goals, purposes, inputs and outcomes; and (ii) for the

Phase –II survey, the time frames for 20 strategic sub-objectives mentioned in the OIC-StatCom Strategic Vision Document.

## 4 Expected Outputs

- Draft Executive Work Plan for the Short, Medium and Long Term Implementation of the OIC-StatCom Strategic Vision

## 5 Methodology

In consultation with the Lead Country, the OIC-StatCom Secretariat followed two methodologies to outline the EWP. The first one was the Project Planning Matrix (PPM) and the second was a brief survey to outline of the EWP with time frame information. The Secretariat circulated the Project Planning Matrix (PPM) in October 2012 to the TCE members. So far only five members submitted their inputs for the PPM. The submitted PPMs can be found in the Appendix.

### 5.1 Phase I: Project Planning Matrix

The PPM, also known as Logical Framework (Logframe), is a planning presentation tool in a “four-by-four” matrix form. The PPM summarizes in one-stage what to achieve, how to achieve, crucial success factors, how to assess success and where to find data for the assessment.

The first column of the PPM is the Narrative Summary that decomposes the EWP into four (4) levels, namely:

- *Overall Objective*; is the first step in constructing the EWP. The entire EWP seeks to achieve the Overall Objectives.
- *Outcome*; describes the anticipated benefits that would contribute to the achievement of the Overall Objective.
- *Outputs/Results*; are at the third-level of the PPM that would bring about the Outcome. Specific and tangible, they express clearly the exact effects. They are the deliverables of the Inputs/Activities.
- *Inputs/Activities*; are the specific tasks that must be realised to generate the Outputs/Results.

The second column of the PPM is the Objectively Verifiable Indicators (OVI) which measures the extent of achievement of each level under the Narrative Summary. The third column of the PPM is the Sources of Verification (SOV) which spells out the data/information sources to verify OVIs. The fourth column of the PPM is Assumptions that influence the EWP and cannot be controlled.

The below matrix summarises the Narrative Summary, OVI, MOV and Assumptions in the PPM:

Narrative Summary	Objectively Verifiable Indicators (OVI)	Sources of Verification (SOV)	Assumptions
<b>Overall Objective</b> Higher-level objective towards whose achievement plan is expected to contribute.	Success measures to verify the extent to which we achieved the Overall Objective. Attributes of OVIs are: Quality, quantity, time, location and target group.	Sources of data to verify each OVI.	Events or conditions that must prevail in order to ensure the achievement of the Overall Objective.
<b>Outcome</b> What we expect to result from all the achievement of the Outputs/Results of one programme.	Success measures that indicate whether we achieved the Outcome or not. Specify quality, quantity, time, location and target group(s) of Outcome.	Sources of data to verify each OVI.	Events, conditions or decisions outside the control of the EWP that must prevail in order for the Outcome to be attained.
<b>Outputs/Results</b> Effects that result from the execution of the planned Inputs/Activities. Also, important achievements that we need to realise to reach the Outcome.	Success measures that indicate whether we achieved the Outputs/Results or not. Indicate the magnitude of Outputs/Results necessary and sufficient to achieve Outcome and specify quality, quantity, time, location and target group of each Output/Result.	Sources of data to verify each OVI.	Events, conditions or decisions outside the control of the EWP necessary for the achievement of each Output/Result.
<b>Inputs/Activities</b> Actions that we have to physically undertake to produce the Outputs/Results.	<b>Resources Required</b> Materials, labour, services and other resources necessary to undertake the Activities.		<b>Preconditions</b> Events, conditions or decisions outside the control of the EWP necessary for the successful execution of the planned Activities.

The coloured regions of the PPM pose the following questions:

- ■ What are we trying to accomplish and why?
- ■ How will we measure success?
- ■ What other conditions must exist?
- ■ How do we get there?

### 5.1.1 Objectively Verifiable Indicators (OVI)

Objectively Verifiable Indicators (OVI) define the performance standards and evidence to achieve the Overall Objective, Outcome, and Outputs/Results. OVIs focus on important characteristics of an objective to be achieved and provide a basis for monitoring and evaluation. In this respect, good OVIs have the following characteristics:

- OVIs measure what is important and specify a magnitude.
- OVIs must be plausible and should reflect identifiable results.
- OVIs are independent at each Narrative Summary level. Each OVI reflects evidence of achievement. You cannot use the same OVI in different levels.
- OVIs should obtain data from readily available sources or that you can collect with reasonable efforts.
- OVIs must be targets that specify:
  - *Quantity*: How much is enough to achieve next level?
  - *Quality*: What quality should it be?
  - *Time*: When do we need it?
  - *Location*: Where do we need it?

#### Steps for Defining OVIs: A Fictitious Example

- *Outcome*: Exchange knowledge on particular topics of interest, and new statistical fields and indicators through an academic journal that is under the guidance of an editorial committee formed of active researchers and practitioners in official statistics.
- *Step 1 – Identify OVI*: The OIC-StatCom publishes an OIC Journal of Official Statistics.
- *Step 2 – Quantify*: At least four papers appear in each issue.
- *Step 3 – Qualify*: Anonymous referees evaluate papers on content, language and presentation
- *Step 4 – Indicate Time*: Published semi-annually.
- *Step 5 – Indicate Location*: Paper priority given to National Statistical Offices (NSOs) of OIC Member Countries.
- *Step 6 – Combine*: The OIC-StatCom publishes a semi-annual OIC Journal of Official Statistics which presents at least four papers in each issue with a priority given to NSOs of OIC Member Countries and whose quality is maintained through anonymous referee evaluations on paper content, language and presentation.

### 5.1.2 Sources of Verification

Sources of Verification (SOV) describe exactly where to find data to verify the OVI. Before settling on each SOV, you need to ask the following questions:

- What information?
- Where can we get it or who will provide it?
- How reliable are the sources?
- Is special data gathering required?
- Is it within our means (in terms of cost, time and know-how) to get it?

Indicators for which no suitable sources of verification can be identified must be replaced by verifiable indicators.

### 5.1.3 Assumptions

Assumptions are important factors outside the control of the plan but necessary for the success of the plan. Assumptions are worded as positive conditions and are weighted according to their importance and probability.

If you think that the assumption you provide will possibly hold true, then you can include it in the PPM. If the assumption you provide will not likely occur, then you should check if the project can be re-designed. Re-designing the project in order to influence the external factor should be done by adding activities or results, or by reformulating the outcome if necessary. If re-designing is not possible, then the project may not be feasible.

### 5.1.4 Extract of a Fictitious Project Planning Matrix for Developing the Executive Work Plan

The below extract shows a fictitious PPM for developing the EWP. We have chosen the Overall Objective “To develop statistical capacity” and one of its Outcomes ““Lessons Learnt” and “Success Stories” regarding the experiences gained and challenges faced by the OIC-StatCom members were shared through a virtual statistical system (VSS)” which are found in the OIC-StatCom Strategic Vision Document.

Narrative Summary	Objectively Verifiable Indicators (OVI)	Sources of Verification (MOV)	Assumptions
<b>Overall Objective</b> To develop statistical capacity <sup>1</sup> .	The average Overall Statistical Capacity Indicator score of OIC Member Countries surpassed that of the World by 2020.	Bulletin Board on Statistical Capacity of the World Bank	All members of the OIC-StatCom are committed to what it takes to develop statistical capacity of OIC Member Countries.
<b>Outcome</b> “Lessons Learnt” and “Success Stories” regarding the experiences gained and challenges faced by the OIC-StatCom members were shared through a virtual statistical system (VSS) <sup>2</sup> .	A content management system at the OIC-StatCom Secretariat hosting “Lessons Learnt” and “Success Stories” of NSOs of OIC Member Countries by the end of 2013 <sup>3</sup> .	SESRIC’s Report on Activities of the OIC-StatCom submitted to Annual COMCEC Session in 2014	OIC-StatCom members have a sound documentation system for experiences gained and challenges faced before, during and after their statistical activities and projects.
<b>Result 1</b> A VSS was developed.	Web presence with an authentication service and content editing capability for the focal points of OIC-StatCom members was made available in three official languages of the OIC (Arabic, English, and French) by the second half of 2013.	Note Verbale of the SESRIC to OIC-StatCom members announcing the availability of VSS	OIC-StatCom members will be ready to contribute content to the VSS.
<b>Result 2<sup>4</sup></b> ...	...	...	...

<sup>1</sup> This Overall Objective is one of the four strategic objectives mentioned in the OIC-StatCom Strategic Vision Document (SVD). The other strategic objectives are (i) To coordinate statistical cooperation and collaboration among NSOs, OIC-StatCom, regional and international organisations; (ii) To develop common methodologies for indicators specific to the OIC Member States; and (iii) To accredit statistical professionals. The participants are not expected to change this part.

<sup>2</sup> This Outcome is mentioned under the Statistical Capacity Development strategic objective of the OIC-StatCom SVD. The TCE members were not also expected to change this part.

<sup>3</sup> Please consider giving exact start and end dates for the OVIs and Resources Required columns as it will determine if the Outcome is a short, medium, or long term.

<sup>4</sup> The TCE Members were free to add more Results and Activities (with their corresponding OVIs, MOVs, Assumptions, etc.) if they thought it was appropriate to do so.

Activities	Resources Required	Preconditions
<p><b>Result 1: A VSS was developed.</b></p> <p><b>1.1</b> Organise a kick-off meeting for the infrastructure, layout, and design of the VSS following the Third Session of OIC-StatCom</p> <p><b>1.2</b> Install, customise and test content management system (CMS)</p> <p><b>1.3</b> Test authentication and editor services of CMS externally and fine-tune CMS based on feedback</p> <p><b>1.4</b> Launch the CMS and upload “Lessons Learnt” and “Success Stories”</p>	<ul style="list-style-type: none"> <li>• Organisational chart depicting the staff involved and their roles in the development of VSS prepared in collaboration with the relevant SESRIC departments (two men/day)</li> <li>• Report on alternative technologies for building the VSS prepared by the SESRIC Publications and IT Department (three men/day)</li> <li>• Page schematics representing the skeletal VSS framework prepared by the SESRIC Publications and IT Department (five men/day)</li> <li>• A web server compatible with the requirements of the CMS</li> <li>• One developer to customise the CMS to build the VSS with authentication and editing capabilities (ten days)</li> <li>• At least three internal testers to try and assess the system (five days)</li> <li>• Two users per one representative OIC-StatCom member country from six regions of OIC (in total twelve users) to test CMS (five days)</li> <li>• One developer to fine tune CMS based on testers’ feedback (two days)</li> <li>• One dedicated focal point from all OIC-StatCom Members to upload content concerning “Lessons Learnt” and “Success Stories” to the CMS (one man/day)</li> <li>• Editorial Committee at the OIC-StatCom Secretariat for proofreading the uploaded content for maintaining a certain quality level (three man/day)</li> </ul>	<ul style="list-style-type: none"> <li>• Resources required are within the control of OIC-StatCom Secretariat.</li> <li>• Resources required are within the control of OIC-StatCom Secretariat.</li> <li>• Testers are knowledgeable about system performance testing and bug reporting.</li> <li>• OIC-StatCom members are willing to share their experiences and learn from each other.</li> </ul>
<p><b>Result 2: ...<sup>6</sup></b></p> <p><b>2.1 ...</b></p> <p><b>2.2 ...</b></p>	<ul style="list-style-type: none"> <li>• ...</li> <li>• ...</li> <li>• ...</li> </ul>	<ul style="list-style-type: none"> <li>• ...</li> <li>• ...</li> <li>• ...</li> </ul>

### 5.1.5 Limitations

Though being an optimal tool for the preparation of EWP and having many advantages, the PPM circulated by the Secretariat was completed only by 5 member countries. The following reasons might have played a role in the low rate of response:

- The PPM is simply an empty matrix that basically contains 15 cells to be filled up by the respondents/focal points. The quality of the PPM is directly determined by the quality of work put in by the focal points. As not all focal points have expert level knowledge on the points covered by the OIC-StatCom Strategic Vision Document, only a few focal points could submit the PPM. The Secretariat also received comments that the PPM was difficult for the focal points to complete on their own and they could not get a comprehensive feedback from their organisations concerning the objectives

- Among the responses received, an inappropriate level of detail (too much or too little) was recorded. Also for some cases, some of the cells were not responded by the focal points, which makes it a hindrance to see the bigger picture.
- Getting a consensus in the PPM sub-components to outline the EWP was observed to be a challenging task both by the Lead Country and Secretariat as the reconciliation required profound level of expertise in respective strategic objectives.

## 5.2 Phase II: Time Framing for the EWP

As stated in the Limitations section of Phase I, the PPM approach has its difficulties. To overcome these difficulties and prepare the EWP, the Secretariat in consultation with the Lead Country prepared a less complex survey to learn about the leanings of TCE members concerning the categorisation of strategic objectives under short, medium, and long term time frames. The survey was circulated by the Secretariat in November 2012 to get the responses of the TCE members. Only seven TCE members responded the survey circulated. A table summarizing the aggregated responses of the seven TCE members is given in the Appendix.

The responding seven TCE members assigned the following strategic objectives as **SHORT-TERM**:

1. First Strategic Objective: ***Statistical Capacity Development***
  - Strategic Sub-Objective #1: Prepare an OIC-StatCom framework for supporting the NSS of the OIC Member States in accordance with their development priorities. This framework outlines the statistical capacity development priority areas by identifying the needs of the NSOs and professional skills essential for statistical information collection, collation, processing, and dissemination; and describes general strategies for carrying out effective programs;
  - Strategic Sub-Objective #5: Share “Lessons Learnt” and “Success Stories” regarding the experiences gained and challenges faced by the OIC-StatCom members through a virtual statistical system;
2. Second Strategic Objective: ***Coordination of Statistical Cooperation and Collaboration among NSOs, OIC-StatCom, Regional and International Organisations***
  - Strategic Sub-Objective #12: Initiate cooperation and collaboration programmes for the needs of the NSOs of the OIC Member States to be identified through the physical and virtual meeting rounds of a panel of experts in a structured, systematic, and interactive way;
3. Third Strategic Objective: ***Development of Common Methodologies for Indicators Specific to the OIC Member States***
  - Strategic Sub-Objective #17: Identify priority areas specific to the OIC Member States and develop conceptual and methodological background for the selected indicators;
4. Fourth Strategic Objective: ***Accreditation of Statistical Professionals***
  - Strategic Sub-Objective #19: Develop conceptual and methodological background of the accreditation program for professional official statisticians working for organisations of the OIC Member States;

The responding seven TCE members assigned the following strategic objectives as **MEDIUM-TERM**:

1. First Strategic Objective: ***Statistical Capacity Development***
  - Strategic Sub-Objective #2: Develop a clear-structured governance mechanism based on a life-cycle approach for the statistical capacity development activities of OIC-StatCom;
  - Strategic Sub-Objective #3: Harmonize levels of statistical development of OIC Member States on the basis of Statistical Work Program to be prepared by considering priorities of the OIC policies and urgent needs of the NSOs;
  - Strategic Sub-Objective #4: Ameliorate the professional skills of the staff in ICT, modern management methods, statistical data collection, collation, processing and dissemination, and NSS management by organising training programs and constructing platforms for offering e-learning programs that are embedded in or offered as extensions of the statistical consultancy service programs to be carried out among the OIC-StatCom members;
  - Strategic Sub-Objective #6: Exchange knowledge on particular topics of interest, and new statistical fields and indicators through an academic journal that is under the guidance of an editorial committee formed of active researchers and practitioners in official statistics;
  - Strategic Sub-Objective #7: Develop statistical awareness and outreach programs for the public and media workers in cooperation with relevant stakeholders;
  - Strategic Sub-Objective #11: Encourage the NSOs to communicate with higher education institutions to develop and strengthen academic curricula satisfying the human resources' needs of NSOs and also encourage and support instructors-in-training in the Faculties of Education in using their services and products in class activities.
2. Second Strategic Objective: ***Coordination of Statistical Cooperation and Collaboration among NSOs, OIC-StatCom, Regional and International Organisations***
  - Strategic Sub-Objective #13: Take a strong leadership role to promote close collaboration and cooperation among the OIC-StatCom, other relevant OIC bodies and relevant stakeholders by actively communicating the objectives of the Committee and identified needs of the OIC-StatCom members;
  - Strategic Sub-Objective #14: Strengthen the cooperation among OIC-StatCom and other national, regional, and international stakeholders by establishing sustainable relationships through effective networking channels for supporting the trainings, and developing mobility programs; such as staff exchange (secondment) between NSOs and international organisations, study visits, etc;
  - Strategic Sub-Objective #15: Support the production of regional strategies by regional and international stakeholders for the development of statistics similar to national strategies for development of statistics;
3. Third Strategic Objective: ***Development of Common Methodologies for Indicators Specific to the OIC Member States***
  - None
4. Fourth Strategic Objective: ***Accreditation of Statistical Professionals***
  - None

The responding seven TCE members assigned the following strategic objectives as **LONG-TERM**:

1. First Strategic Objective: ***Statistical Capacity Development***
  - Strategic Sub-Objective #8: Promote the design and implementation of national education curricula that are bound for bringing in statistical literacy to students of primary and secondary education levels with relevant stakeholders;
2. Second Strategic Objective: ***Coordination of Statistical Cooperation and Collaboration among NSOs, OIC-StatCom, Regional and International Organisations***
  - None
3. Third Strategic Objective: ***Development of Common Methodologies for Indicators Specific to the OIC Member States***
  - Strategic Sub-Objective #18: Develop a quality assurance framework for the NSOs of OIC Member States describing the tools and procedures put in place to ensure that the statistics produced by the NSOs are of high quality with a focus on statistical processes and outputs;
4. Fourth Strategic Objective: ***Accreditation of Statistical Professionals***
  - Strategic Sub-Objective #20: Encourage the certification of expertise and knowledge under an official context for the professional conduct of statistical work of statistical specialists working for the organisations of the OIC Member States;

For the following strategic objectives, the aggregation of the responses of the seven TCE members did not produce a precise dominating timeframe:

1. First Strategic Objective: ***Statistical Capacity Development***
  - Strategic Sub-Objective #9: Develop effective dissemination and communication systems including the usage of social media through a Communications Toolkit for NSOs for enhancing the usage of data produced by the NSOs and ensuring the data provided are correctly perceived and appropriately used by the users;
  - Strategic Sub-Objective #10: Transform the current working conditions of NSOs into learning environments by considering change management and business process re-engineering to nurture dynamism into the operations of NSOs;
2. Second Strategic Objective: ***Coordination of Statistical Cooperation and Collaboration among NSOs, OIC-StatCom, Regional and International Organisations***
  - None
3. Third Strategic Objective: ***Development of Common Methodologies for Indicators Specific to the OIC Member States***
  - Strategic Sub-Objective #16: Promote harmonisation of concepts, classifications and methodologies used in performing statistical activities in OIC Member States to promote consistency in statistical systems;
4. Fourth Strategic Objective: ***Accreditation of Statistical Professionals***
  - None

## 6 Conclusion and the Way Forward

Out of 22 TCE members from the National Statistical Offices of OIC Member Countries, only 11 of them provided their inputs in which 5 of them responded to the PPM and 7<sup>5</sup> of them responded to the Phase-II survey. Before starting Phase-I study (PPM), the Secretariat asked the TCE members to learn about their experience related to their contributions in such similar international strategic planning activities which did not produce enough inputs by them.

The aggregation of the responses to the Phase-II survey given by the 7 TCE members showed that:

- 5 out of 20 strategic sub-objectives are to be covered in SHORT-TERM
- 9 out of 20 strategic sub-objectives are to be covered in MEDIUM-TERM
- 3 out of 20 strategic sub-objectives are to be covered in LONG-TERM
- 3 out of 20 strategic sub-objectives are observed to be without any precise dominating timeframe assignment.

The results indicated that the MEDIUM-TERM has the biggest share with regards to the assignment of strategic sub-objectives and followed by SHORT-TERM. However, there was only 3 strategic sub-objective determined by the respondents to be LONG-TERM and 3 of them without any precise dominating timeframe.

In this regard, the delegates to participate in the Third Session of OIC-StatCom should prioritise the respective strategic sub-objectives in each timeframe and determine a precise timeframe for the 3 strategic sub-objectives that the TCE members could not form a majority opinion. Last but not least, although the PPM approach could not be used effectively in this TCE, the OIC-StatCom members should take a decision for its proper use during the planning phase of respective strategic sub-objectives in the SHORT/MEDIUM/LONG-TERM.

---

<sup>5</sup> One country also provided a PPM.

## 7 Appendix

### 7.1 Country Inputs in the PPM

#### 7.1.1 Country I

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b> To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b> An OIC-StatCom framework for supporting the NSS of the OIC Member States was prepared in accordance with their development priorities. This framework outlined the statistical capacity development priority areas by identifying the needs of the NSOs and professional skills essential for statistical information collection, collation, processing, and dissemination; and describes general strategies for carrying out effective programs. 	Operating status of the computer system; implementation of the program of statistic operation collection made on the due date	Survey reports published in real time; Activity Report INSAE	Training adapted to the needs of the Institute
<b>Outcome</b>			
The professional skills of the staff in ICT, modern management methods, statistical data collection, collation, processing and dissemination, and NSS management were ameliorated by organising training programs and constructing platforms for offering e-learning programs that are embedded in or offered as extensions of the statistical consultancy service programs to be carried out among the OIC-StatCom members.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Deploying SQL server on the network and development of new web applications, Knowledge of different options CAPI; Create input mask; Development of CAPI modules	Activity Report of IT and network; training Report	Trainings considered to fully meet a real need
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Training in design, development and management of a dynamic database, capacity building of senior statisticians and computer scientists in the use of CAPI applications of CSPro	Number of bases of dynamic databases designed at the end of the training, Number of bases of dynamic databases designed at the end of the training	Efficient operation of the network; Concept papers; training report; report of the Institute activity	Evolution of new computer; Two experiments have already been carried out in 2011 using the CAPI method, the CAPI method very effective for the collection of quality data in the field
<b>Inputs/Activities</b>			
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Consultant support, staff training	Training center references, training catalog, detailed curriculum vitae under control method		Strong international expertise, the Institute has benefited in 2011 from the expertise of an international consultant

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Number of publications and data accessed and used	INSAE, download on the site, survey for decision makers	Year report of data quality
<b>Outcome</b>			
Effective dissemination and communication systems were developed including the usage of social media through a Communications Toolkit for NSOs for enhancing the usage of data produced by the NSOs and ensuring the data provided are correctly perceived and appropriately used by the users.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Accessibility of RGPH data Computerization of the documentary; Implementation of document management software free PMB; Migration of the documentary base to PMB, PMB Implementation of	consultant mission report	The documentation center answer standards for document management
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Support a digital platform around RGPH; Support the documentary chain automation	Using data RGPH Launch of the documentary base and accessibility Cataloguing and indexing of structures; Attribution of bar codes to documents; Catalog Edition	Number of RGPH user data List of processed documents	RGPH data are used by decision makers Structures are treated on the basis of Macrothesaurus
<b>Inputs/Activities</b>			
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Support of expert consultants, staff training	Expert with proven experience in the development of a digital platform and a computerized library management system, hardware requirements		Computing environment INSAE

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop common methodologies for indicators specific to the OIC Member States	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Index User Satisfaction (bank, mortgage manager, builders)	User Survey	Formalization of the index by the Government of Benin
<b>Outcome</b>			
Harmonisation of concepts, classifications and methodologies used in performing statistical activities in OIC Member States was promoted to improve consistency in statistical systems.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Production of an indicator for monitoring implementation costs of buildings and public works in Benin	Database of the quarterly subscribers number	Formalization of the index by the Government of Benin
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Database of construction materials price, index of quarterly prices of construction materials, quarterly index of the cost of labor force, quarterly index of the cost of labor, quarterly index of the rental and amortization material cost	Indicator of database quality Checking	Audit of the database	available funding
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Support expertise, design database	Expert in civil engineering, database design, print release notes, training		Available construction Business Directory

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions

## 7.1.2 Country II

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<p><b>Overall Objective</b></p> <p>To develop statistical capacity</p>	<p>What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.</p>	<p>What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.</p>	<p>What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.</p>
<p><b>Outcome</b></p> <p>An OIC-StatCom framework for supporting the NSS of the OIC Member States was prepared in accordance with their development priorities. This framework outlined the statistical capacity development priority areas by identifying the needs of the NSOs and professional skills essential for statistical information collection, collation, processing, and dissemination; and describes general strategies for carrying out effective programs.</p>	<p>What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.</p>	<p>What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.</p>	<p>What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.</p>
	<p>Quality data should be available for the users in a timely manner by improving collection, processing and dissemination tools of data</p>	<p>Make a survey filling by data's user, to determine the extent of success achieved</p>	<p>Provide required human and material resources, follow standard scientific methodologies and international recommendations</p>
<p><b>Outputs/Results</b></p> <p>What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.</p>	<p>What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below</p>	<p>What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.</p>	<p>What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.</p>
<p><b>Inputs/Activities</b></p> <p>What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.</p>	<p><b>Resources Required</b></p> <p>What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.</p>	<p><b>Preconditions</b></p> <p>What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.</p>	
<p>Identify the numbers and competences of the workers in the fields of statistics, work on the description of their jobs, and determine the needs of the workforce for each of the statistical offices</p>			<p>Existence of database about workers: numbers, area of competence, qualifications and job history.</p>

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<p><b>Overall Objective</b></p> <p>To develop statistical capacity</p>	<p>What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.</p>	<p>What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.</p>	<p>What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.</p>
<p><b>Outcome</b></p> <p>A clear-structured governance mechanism based on a life-cycle approach for the statistical capacity development activities of OIC-StatCom was developed.</p>	<p>Updating statistical legislations and developing systems that facilitate the implementation of statistical operations with high efficiency</p> <p>What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.</p>	<p>What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Knowledge on particular topics of interest, and new statistical fields and indicators were exchanged through an academic journal that is under the guidance of an editorial committee formed of active researchers and practitioners in official statistics.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Raise the level of knowledge and new indicators areas in the statistics among Member States	Each member of the Member States should contribute to the academic journal.	determine each member or group from the Member States responsible for the follow-up contribution magazine
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Issue of OIC-statistical journal and each member states will have the right to publish the most important and latest of their findings in the field of statistics	Statistical Commission should try continuously to use the available regional and international training opportunities effectively. Periodic meetings to exchange experiences between the member states	Each of the Member States should fill a survey so that the organization can make sure to check the outcomes.	contribution of each of the Member States in the development and enrichment of the magazine
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Statistical awareness and outreach programs for the public and media workers were developed in cooperation with relevant stakeholders.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Trainees' perception of the statistics role in the development, and strengthening the relationship between the partners of the statistical work.	Increase the use rate of Statistics	
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
<b>Inputs/Activities</b>	<b>Resources Required</b>	<b>Preconditions</b>	
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.	
- Held training sessions for media professionals on how to deal with data. - Active participation in regional and international activities			

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below. What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The design and implementation of national education curricula that are bound for bringing in statistical literacy to students of primary and secondary education levels were promoted with relevant stakeholders.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	awareness programs in the media directed to families and individuals		
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Increase the awareness among school students			
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Inclusion of statistical material in the curricula, prepare training courses for teachers on how to raise statistical awareness of students			

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<p><b>Overall Objective</b></p> <p>To develop statistical capacity</p>	<p>What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? <p>Start to implement the program</p>	<p>In the manner set out in the document of professional accreditation for statisticians.</p>		<p>Member States should encourage all workers in the field of statistics to obtain such certificates</p>

### 7.1.3 Country III

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Number of officers of the National Statistical System trained in the field of Statistics	Report on the annual reviews of the Master Plan for Statistics	Degree of political and financial commitment of governments and donors
<b>Outcome</b>			
An OIC-StatCom framework for supporting the NSS of the OIC Member States was prepared in accordance with their development priorities. This framework outlined the statistical capacity development priority areas by identifying the needs of the NSOs and professional skills essential for statistical information collection, collation, processing, and dissemination; and describes general strategies for carrying out effective programs.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Organic frameworks of SSN structures are completely filled regarding positions of statistician	Report on the annual reviews of the Master Plan for Statistics	Degree of political and financial commitment of governments and donors
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1. Centre of Training and Development is operational in Mali; 2. Candidates to the ESA and IFORD competition are better trained and scholarships are awarded to admitted; 3. Existing staff within the NSS is upgraded and Perfected	1. Centre of Training and Development is operational in Mali; 2. Number of candidates to contest IFORD and ESA competition and the number of successful candidates who received a scholarship 3. Number of auditors trained by continuous training module	1. Progress report of the Centre for Training and Development; 2. List of students training in ESA and IFORD; 3. Report of training sessions organized 4. Report of annual reviews of the Master Plan for Statistics	Degree of political and financial commitment of governments and donors  Youth engagement universities to pursue studies in statistics
<b>Inputs/Activities</b>			
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		<b>Preconditions</b>
1. Creating a sector of senior technicians of Statistics 2. Support the training of Malian students in special schools (Statistics and Demography) 3. Upgrading and Development of existing staff within the NSS	1. 445.580 million CFA francs to mobilize in 1 <sup>st</sup> Q1 2013 for the creation; 2. 1 268.080 million francs CFA to mobilize between 2012-2017 to support the training of Malian students in special schools (Statistics and Demography); 3. 542 925 000 CFA to mobilize for the upgrade and development of existing staff within the NSS		Degree of political and financial commitment of governments and donors

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Statistical law, Enforcement Decree, Establishment Agreement of INSTAT, creation law of CPS are developed and adopted by the competent authorities	Official Journal of the Republic of Mali;	Direction given by the Government, the degree of government commitment, capacity proposal of NSS structures
<b>Outcome</b>			
A clear-structured governance mechanism based on a life-cycle approach for the statistical capacity development activities of OIC-StatCom was developed.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	The evaluation of the institutional and regulatory environment of statistics in Mali is made	Annual reviews Report of the Master Plan for Statistics	Direction given by the Government, the degree of government commitment, capacity proposal of NSS structures
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1. Laws and regulations (Statistical law, Enforcement Decree, Establishment Agreement of INSTAT, procedure manual and staff management SSN) are revised; 2. The revised laws and regulations are adopted; 3. The study on the new mode of statistician staff management is performed.	1. The number of laws and regulations revised and adopted; 2. The implementation of the study on the new management statistician staff	1. Official Journal of the Republic of Mali; 2. Annual reviews Report of the Master Plan for Statistics 3. Procedure manuals and NSS statistician personnel management developed	Direction given by the Government, the degree of government commitment, capacity proposal structures of NSS
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1. reviewing of Laws and regulations (Statistical law, Enforcement Decree, Establishment Agreement of INSTAT, procedure manual and staff management SSN) 2. Adoption of revised laws and regulations; 3. Implementation of the study on the new mode of statistician staff management.	- 1 <sup>st</sup> Quarter 2013 for legislation and regulations to revise and adopt without cost; - 60 million CFA francs for the conduct of the study		Direction given by the Government, the degree of government commitment, capacity proposal of NSS structures

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Supply of the National Fund for the Development of Statistics	Bank statements	Degree of political and financial commitment of governments and donors
<b>Outcome</b>			
Levels of statistical development of OIC Member States were harmonised on the basis of Statistical Work Program to be prepared by considering priorities of the OIC policies and urgent needs of the NSOs.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	1. Funding is available for statistical activities; 2. Level of allocation of funds allocated for the financing of statistic activities	Bank statements	Degree of political and financial commitment of governments and donors
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Texts to create a national fund for the development of statistics are adopted	The texts of creation of the National Fund for the Development of Statistics adopted by the Council of Ministers	Texts to create a national fund for the development of statistic	Degree of political and financial commitment of governments and donors
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Development and Adoption of texts to create a National Fund for the Development of Statistics	End of 1 <sup>st</sup> quarter 2013		Degree of political and financial commitment of governments and donors

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Degree of access to statistical information	Evaluation report	Insufficiency of qualified human resources within the NSS
<b>Outcome</b>			
The professional skills of the staff in ICT, modern management methods, statistical data collection, collation, processing and dissemination, and NSS management were ameliorated by organising training programs and constructing platforms for offering e-learning programs that are embedded in or offered as extensions of the statistical consultancy service programs to be carried out among the OIC-StatCom members.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Degree of access to statistical information	Evaluation report	Insufficiency of qualified human resources within the NSS
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1. The collection of statistical data is available; 2. Methodological documents are available and regularly updated 3. The collection of statistical concepts and definitions is available; 4. -The above documents are regularly broadcast on websites	1. Number of collection of statistical data is available 2. Number of Methodological documents regularly updated is available 3. Number of collection of statistical concepts and definitions is available 4. Number of documents regularly broadcast on websites	The collection of statistical concepts and definitions is available Methodological documents regularly updated	Insufficiency of qualified human resources within the NSS
<b>Inputs/Activities</b>			
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1. Development of collection of statistical data is available 2. Development updating of Methodological documents 3. Development of collection of statistical concepts and definitions in effect	Mobilization of 60 million CFA francs for the development of methodological documents from 2013 to 2017		Insufficiency of qualified human resources within the NSS

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Holding regular meetings statutory of CCSI	Report of meetings	Degree of political and financial commitment of governments, of NSS stakeholders and donors
<b>Outcome</b>			
"Lessons Learnt" and "Success Stories" regarding the experiences gained and challenges faced by the OIC-StatCom members were shared through a virtual statistical system.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Progressive reduction of the activities carried out of program	Report of meetings	Degree of political and financial commitment of governments, of NSS stakeholders and donors
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1. SDS annual reviews are held regularly 2. global and African days of statistics are regularly organized	1. Holding annual reviews of the SDS 2. Organization of African and global days of statistics; 3. Number of awareness mission / advocacy organized; 4. Number of NSS players encountered / touched	Journals report  Days Report  Missions Report	Degree of political and financial commitment of governments, of NSS stakeholders and donors
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1. Organize regular reviews of SDS 2. Organize regular world and African days of SDS Statistics	30 million per year for five years from 2013, which make 150 million to mobilize		Degree of political and financial commitment of governments, of NSS stakeholders and donors

## 7.1.4 Country IV

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	1) Number of trainings imparted. 2) Number of beneficiary institutions.	National Statistical Offices of SAARC Member Countries (NSOs)	Institutionalized liaison
<b>Outcome</b>			
An OIC-StatCom framework for supporting the NSS of the OIC Member States was prepared in accordance with their development priorities. This framework outlined the statistical capacity development priority areas by identifying the needs of the NSOs and professional skills essential for statistical information collection, collation, processing, and dissemination; and describes general strategies for carrying out effective programs.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Feed back on prescribed format	NSOs	Government commitment
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Number of scheduled Statcap initiatives realized.	Post activity evaluation by NSOs	NSOs	Government commitment
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Fulfillment of resource obligations by states	Activity specific resource mobilization according to given time line		Government commitment

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
A clear-structured governance mechanism based on a life-cycle approach for the statistical capacity development activities of OIC-StatCom was developed.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Collation of scheduled activities with achieved activities	NSOs	Level of government commitment
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Vigorous coordination with focal agencies.	1) Time series of the number of beneficiaries 2) Transition to GDDS/SDDS	Focal agencies	Central focus in the government priorities
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
In built mechanism to meet out resource obligations	Activity specific resource mobilization on mandatory basis.		Successful execution may be made part of NAC / AG annual reporting on the efficacy of governance

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Levels of statistical development of OIC Member States were harmonised on the basis of Statistical Work Program to be prepared by considering priorities of the OIC policies and urgent needs of the NSOs. <b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Knowledge on particular topics of interest, and new statistical fields and indicators were exchanged through an academic journal that is under the guidance of an editorial committee formed of active researchers and practitioners in official statistics.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Regular issues of peer reviewed research journals	NSOs and international journals.	Patronage to undertake research.
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
A will functioning Institute of research and statistics	Level of mainstreaming of institute of research and statistics	NSOs and academia	Patronage to undertake applied research
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Mainstream NSO in government hierarchy	Mandatory budgetary allocations		Existence of statistical service group

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Statistical awareness and outreach programs for the public and media workers were developed in cooperation with relevant stakeholders.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Level and frequency of the projection of NSOs works in media	Instant electronic media	A robust civil society
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Production of output pertinent of current and emerging issues	Frequency of access to OIC/NSO website	Frequency of citation of NSO/OIC Statcom	Popularity of informational / economic discourses
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Compilation of output in a media savvy and user friendly format	Existence of public relation office in NSOs		Public perception of NSOs

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The design and implementation of national education curricula that are bound for bringing in statistical literacy to students of primary and secondary education levels were promoted with relevant stakeholders.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Employability of Statisticians	NSOs/focal agencies	Existence of statistical service group.
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Expending exchange of experts among OIC states	Intra OIC developmental initiatives involving OIC experts.	Focal / beneficiary agencies	Rising intra OIC cooperation in the field of development
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Updated list of experts on offer	Documentation of human resources across OIC		Pro-OIC bias in the paradigm of development

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Effective dissemination and communication systems were developed including the usage of social media through a Communications Toolkit for NSOs for enhancing the usage of data produced by the NSOs and ensuring the data provided are correctly perceived and appropriately used by the users.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Frequency and level of references in social media	Electronic / print / social media	Users-perception of governance and institutions
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Range of out put with futuristic outlook	Frequency of citation of, and, cogency awarded to, NSO work	Print / electronic / social media	Culture of evidence based discourse
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Resource mobilization to implement ever expanding profile of activities	Resource allocation as imperative part of budgetary framework by OIC states		Status of inter – OIC cooperation in national priorities

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The current working conditions of NSOs were transformed into learning environments by considering change management and business process re-engineering to nurture dynamism into the operations of NSOs.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Number of institutional remaking initiatives launched.	NSOs	Prominence of NSO work in the matter of governance
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Modality of engagement in restructuring initiatives	Role in restructuring initiatives	NSOs	Status of OIC in national priorities
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Mandatory support to capacity building initiatives	Regular preparation and implementation of Annual Work Programme (AWP)		Status of intra OIC cooperation in national priorities

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The NSOs were encouraged to communicate with higher education institutions to develop and strengthen academic curricula satisfying the human resources' needs of NSOs and also instructors-in-training in the Faculties of Education were encouraged and supported in using their services and products in class activities.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Inter / intra OIC demand of experts	NSO/universities	Trend towards knowledge based governance
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Mandatory exchange of on job trainings	Frequency of backward and forward linkages with industries and universities	Concerned institutions / organizations	Role / status of information technology
<b>Inputs/Activities</b>		<b>Resources Required</b>	<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
A robust institute of statistics and technology	Mandatory resource allocation for basic and applied research.		Interactive cooperation among productional, educational and statistical organization

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To coordinate statistical cooperation and collaboration among NSOs, OIC-StatCom, regional and international organisations	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Cooperation and collaboration programmes were initiated for the needs of the NSOs of the OIC Member States to be identified through the physical and virtual meeting rounds of a panel of experts in a structured, systematic, and interactive way.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Frequency of inter – OIC cooperation in information and technology	Beneficiary organizations / NSO	Pro-OIC bias in national plans of action.
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Mandatory meeting of the panels of experts	Frequency and efficacy of the penal of expert meetings	Beneficiary/ focal agencies	Mandatory provision of budgetary resources to conduct meetings of experts.
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
To sponsor meetings of experts on rotational basis	Institutional framework to carry out panel's recommendation		Parliamentary Monitoring of inter OIC cooperation

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To coordinate statistical cooperation and collaboration among NSOs, OIC-StatCom, regional and international organisations	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
A strong leadership role was taken to promote close collaboration and cooperation among the OIC-StatCom, other relevant OIC bodies and relevant stakeholders by actively communicating the objectives of the Committee and identified needs of the OIC-StatCom members.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Parliamentary oversight of the process.	Reflection in the AG report	Status of inter OIC initiatives in AWP of governments
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Making inter OIC cooperation part of Planning Commission mandate	Status in the developmental plans.	Partner agencies	Priorities in implementations framework
<b>Inputs/Activities</b>	<b>Resources Required</b>	<b>Preconditions</b>	
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.	
Inter OIC cooperation made part of annual development planning exercise.	Activity – specific resource allocation	Priorities in the release of funds	

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To coordinate statistical cooperation and collaboration among NSOs, OIC-StatCom, regional and international organisations	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The cooperation among OIC-StatCom and other national, regional, and international stakeholders was strengthened by establishing sustainable relationships through effective networking channels for supporting the trainings, and developing mobility programs. such as staff exchange (secondment) between NSOs and international organisations, study visits, etc.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Number of study visits, secondments undertaken	Beneficiary agencies	Procedural / protocol / logistical facilitation
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Institutional mechanism to steer the process.	Productive placement of beneficiaries in the system	Beneficiary agencies / NSOs	Post – initiative assessment of benefit accrued
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
A will staffed OIC desk in Foreign Offices.	Connectivity across OIC States		Level of national technological capacity

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To coordinate statistical cooperation and collaboration among NSOs, OIC-StatCom, regional and international organisations	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Frequency of cooperational initiatives	Partner organizations	Inter connectivity and mandate
<b>Outcome</b>			
The production of regional strategies by regional and international stakeholders was supported for the development of statistics similar to national strategies for development of statistics.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	The status of methodological updates	Partner agencies	Trend to knowledge based governance.
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
A will functioning NSOs	Credibility of NSOs	NSOs	Role of NSO in preparation of Annual Development Plan
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Autonomy of initiative to undertake data inquests	Financial autonomy of NSOs		Institutionalized lesion with users / academia

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop common methodologies for indicators specific to the OIC Member States	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Availability of comparable data across OIC	National / international publications / releases	NSO priorities to embrace best practise
<b>Outcome</b>			
Harmonisation of concepts, classifications and methodologies used in performing statistical activities in OIC Member States was promoted to improve consistency in statistical systems.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Inter connective websites across OIC	NSOs	Frequency and timeliness of initiatives to embrace best practices
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
AWP to embrace latest standards	Pace of adopting uniform standards across OIC	NSO/partner agencies	Economic importance of OIC specific data
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Mandatory appraisal of the NSOs profile	Connectivity with national / international agencies		Trends toward e-governance

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop common methodologies for indicators specific to the OIC Member States	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Availability of OIC specific statistics	NSO websites	Demand of OIC – specific data
<b>Outcome</b>			
Priority areas specific to the OIC Member States were identified and conceptual and methodological background for the selected indicators were developed.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Use of OIC specific data	Socio-economic entities	Utility of OIC data to entrepreneurs
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Identification of complementarities among OIC states	Use of OIC – specific data	Socio-economic entities	Emergence of OIC centred entrepreneurship.
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Institutional set up to explore inter- OIC complementarities	Infrastructure and operational/financial facilitation to explore common competitive advantages of OIC states		Pro-OIC bias in national plans.

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop common methodologies for indicators specific to the OIC Member States	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
A quality assurance framework for the NSOs of OIC Member States describing the tools and procedures put in place was developed to ensure that the statistics produced by the NSOs are of high quality with a focus on statistical processes and outputs.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Accreditation to international standards viz GDDS/SDDS etc	NSO/focal agencies	Government priorities
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Implementation framework to embrace standards	Availability of updated data on latest format	NSO/focal agencies	Government support
<b>Inputs/Activities</b>	<b>Resources Required</b>	<b>Preconditions</b>	
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.	
Institutional framework to make interactive cooperation with international agencies.	Activity specific resources to develop pertinent solutions.	Trends towards evidence based policy formulation	

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To accreditate statistical professionals	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Promote membership to international associations	National / international agencies	Access to exams / courses towards accreditation
<b>Outcome</b>			
Conceptual and methodological background of the accreditation program for professional official statisticians working for organisations of the OIC Member States was developed.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Updates of the list of experts	National / international agencies	Employability of professionals
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Modules to assess human resources profile of NSOs	Change in the calibre of rank and file	NSO/beneficiary agencies	Change in the operational profile of organizations
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Modules to access accreditation programme	Programme – specific funding and support		Brain drain

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To accreditate statistical professionals	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The certification of expertise and knowledge under an official context for the professional conduct of statistical work of statistical specialists working for the organisations of the OIC Member States was encouraged.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Use of experts across OIC	NSO/ beneficiary agencies	Look OIC approach
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
OIC – specific employment initiatives	List of experts engaged across OIC	NSO/beneficiary agencies	Look OIC approach
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Institutional framework to promote employment in OIC countries	Infrastructural, operational, financial resources to carry out the mandate		Positive feed back from beneficiaries

## 7.1.5 Country V

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	<p>1- Survey of the number of beneficiaries from the training programs implemented by the Organization of Islamic cooperation in the member countries.</p> <p>2 – Extent benefit Member states technical support provided in various fields (experts in various fields, devices and equipment, etc.). Statistical in member states 1 - software compatibility with the needs of the member states</p>	<p>statistical offices in member states</p>	<p>1- Software compatibility with the needs of the member states</p> <p>2- Ensure sustainability of capacity-building programs</p> <p>3- Provide the necessary material resources</p>
<b>Outcome</b>			
An OIC-StatCom framework for supporting the NSS of the OIC Member States was prepared in accordance with their development priorities. This framework outlined the statistical capacity development priority areas by identifying the needs of the NSOs and professional skills essential for statistical information collection, collation, processing, and dissemination; and describes general strategies for carrying out effective programs.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Provide a national strategy for the count for each member state These strategies are part of the general framework of the Organization	Reports assess the implementation of strategies	Support and commitment of the State in the implementation of the strategy statistical
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Qualified and competent staff Statistical quality output Adherence to standards and statistical concepts The use of modern technologies	Training 200 statistical / economic / Information Technology / Computer / GIS / demographic Implementation of training programs within five years Training will be internally and externally statistical offices in member states	statistical offices in member states	1- Lack of funding and the existence of appropriate training centres
<b>Inputs/Activities</b>			
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	<b>Resources Required</b> What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		<b>Preconditions</b> What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Determine plans and training programs and sent to member states sufficient time Notice states technical assistance programs available	Provide training centres 1- Provide experts in various fields 2- Provide the necessary funding 3- The program is being implemented through five years starting from the year 2013		1- Lack of funding 2- Inadequate Experts

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
A clear-structured governance mechanism based on a life-cycle approach for the statistical capacity development activities of OIC-StatCom was developed.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	1- importance of having an effective structure for the implementation of capacity building programs in the National Strategy 2-system for monitoring and evaluation	1- implementation of the national strategy reports 2- monitoring and evaluation reports	1 - lack of a monitoring and evaluation mechanism
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- Coordination of works and Performance adjust	indicators of tasks implementation	Committees assess the implementation of the strategy	Non-commitment of the plan guidelines
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
commitment with laws and regulations work guidelines	Providing job aids (human and material) during the five years 2013-2017		Non-commitment of the plan guidelines

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Levels of statistical development of OIC Member States were harmonised on the basis of Statistical Work Program to be prepared by considering priorities of the OIC policies and urgent needs of the NSOs.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Effective implementation mechanisms	Performance Reports	adequate funding Commitment of member states
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1 - training programs responding to the member states needs 2 - organizational structures able to achieve the mission of statistical system 3 - effective legal frameworks of the national statistical system 4 - advanced and updated IT technologies	1 - need for a national strategies to ensure the training needs in terms of quality, quantity, time, place, organizational structures, legal frameworks and new technologies	Implementation reports of statistical offices in member states	1 - availability of funding 2 - adequacy of Experts
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1- Identify the training needs 2- Review the best practices and experiences existing in organizational structures and legal frameworks 3- Learn about the latest technologies used	1-fincial funds 2- Experts 3- Machinery and equipment 4- the Implementation will start in the year 2013 lasts one year		adequate funding

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<p><b>Overall Objective</b></p> <p>To develop statistical capacity</p>	<p>What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
“Lessons Learnt” and “Success Stories” regarding the experiences gained and challenges faced by the OIC-StatCom members were shared through a virtual statistical system.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	1- Dissemination of successful experiences and circulated to member states 2- Mutual visits between statistical institutions to identify directly the successful experiences	Performance Reports, statistical commission Publications, and data sites in the Website	1- States' commitment to the deployment of their experiences 2- Availability of financial resources
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- Increased demand for statistical data and use of it in policy-making	1- Size of economic and social data used in policy-making. 2- Reports of mutual visits between statistical offices	Performance Reports, statistical commission Publications, and data sites in the Website	1- States' commitment to the deployment of their experiences 2- Availability of financial resources
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1- Providing data and displayed in a soft manner 2- Training of policy makers to use the data in a proper way to make decisions and policy-making	Adequate funding Qualified personnel Period 2013-2017		Funding Lack of training commitment

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Knowledge on particular topics of interest, and new statistical fields and indicators were exchanged through an academic journal that is under the guidance of an editorial committee formed of active researchers and practitioners in official statistics.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	1- The existence of the Magazine Editorial Board 2- Regularity of the issuance of the magazine with the languages of the Member states	-- statistical offices reports and Organization report --- Research and reports of expert	1- Availability of funding 2- Need of vacant Editorial Board
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- Exchange of experience and expertise in various statistical fields	1- Sustainability of experiences and knowledge dissemination 2- Use various means of publication	statistical offices reports	1- lack of experiences documentation
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1- Exchange of working visits between statistical agencies in the Organization Countries	1- Availability of financial and human resources 2- During 2013-2017		Availability of funding in a timely manner

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Statistical awareness and outreach programs for the public and media workers were developed in cooperation with relevant stakeholders.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Increase of statistical awareness in the importance of statistical data among users, suppliers, producers and public.	Working groups reports	Availability of financial and personnel resources
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- Awareness programs in various media 2- School materials 3- Business meetings 4- Reports and booklets 5- Press conferences 6- Brochures and articles in newspapers 7- Seminars 8- Exhibition and shows presentations	1- Form a working group in charge of awareness 2- Provide basic educational materials 3- Prepare a timetable for the implementation of activities 4- Identify the basic elements for work 5- Preparation of the plan and budget	Periodic reports of working groups	Availability of financial and coach personnel resources
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1- Identify the target groups 2- Prepare materials and media messages 3- Select of an appropriate media 4- determination of the appropriate presentation location	1- Machinery and equipment 2- Media trainer 3- Necessary financial resources 4- During 2013-2017		Availability of funding and experts

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The design and implementation of national education curricula that are bound for bringing in statistical literacy to students of primary and secondary education levels were promoted with relevant stakeholders.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Convinced the member states to include and implement the statistical methods	Member States' reports	member states did not respond to the proposal
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- study materials in the field of statistics in the curricula of primary and secondary education	1- targeting students in general education stage 2 - Preparation of appropriate curricula 3 - Training of teachers on curricula 4 - coordination with the Ministries of Education in the member states	1 - Educational Statistics reports in member states 2 - statistical offices reports	1 - Availability of funding and experts 2 - Respond authorities in member states to incorporate statistical approach within education curricula
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1 - choose a committee of experts to develop a curricula	1 - selection of appropriate educational media 2 - Educational staff trained 3 - adequate financial resources 4 – during one year and begin in 2013		1 - the lack of response of authorities concerned in member states

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Effective dissemination and communication systems were developed including the usage of social media through a Communications Toolkit for NSOs for enhancing the usage of data produced by the NSOs and ensuring the data provided are correctly perceived and appropriately used by the users.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	1- establish communication links between the site of the Statistical Commission and various communication links 2 – configure a publication specialized Department for publishing	reports of the OIC-Statistical Commission and statistical offices in member states	There is no effective coordination among statistical offices and with the OIC-Statistical Commission
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- build databases 2- simplified presentation on data 3- explain the methodologies and statistical concepts in a simplified manner	1 – provides data from statistical offices 2 - provide necessary technical staff	reports of statistical offices in member states	lack of qualified staff
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1 - Coordination of databases by different subjects 2 - regular update of databases 3- Configuration of specialized department for publishing 4 - documenting used statistical approaches and concepts	1 - devices and equipment 2 - Software programs 3- financial resources		3 - lack of financial resources

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The current working conditions of NSOs were transformed into learning environments by considering change management and business process re-engineering to nurture dynamism into the operations of NSOs.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- provide a good working environment 2- Provide the necessary equipment and appliances 3- Determine actions used and write it- FLOWCHART 4- documentation of all statistical processes	1 - provide technical support and financial resources	reports and documents of national statistical offices	lack of financial resources
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1 - identify and buy the necessary machinery and equipment 2 - experts	1 - office equipment and devices 2 - Provide technical staff 3 - the time period is two years starting in 2013 and ending 2014		1- lack of technical staff required 2 - Lack of funding

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To develop statistical capacity	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The NSOs were encouraged to communicate with higher education institutions to develop and strengthen academic curricula satisfying the human resources' needs of NSOs and also instructors-in-training in the Faculties of Education were encouraged and supported in using their services and products in class activities.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	inclusion and implementation of statistical methods	Member States' reports	member states did not respond to the proposal
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1 - compatible curricula with the needs of statistical work 2 - availability of statistical data for universities and higher education institutions	1 - provide adequate staff for Statistical work 2 - respond to the quality of cadres required from the countries	1 - statistical offices reports 2 - Higher Education Statistics	1 - financial support 2 – Technical Support (experts)
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1 - configuration of coordination committee between education institutions and statistical 2 - Agreement to include the needs of statistical work within the curriculum 3 - Preparing the required curricula	1 - experts in the design and preparation of statistical curricula 2 - financial resources 3 - During the period 2013-2017		1 - provide the necessary funding 2 - approval of the competent authorities to include the curricula in the universities courses

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To coordinate statistical cooperation and collaboration among NSOs, OIC-StatCom, regional and international organisations	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	number and size of implemented cooperation programs	1 - statistical reports in the member states and regional and international organizations reports 2 - follow-up study visits	Commitment of bodies and relevant organizations in the signed cooperation programs
<b>Outcome</b>			
Cooperation and collaboration programmes were initiated for the needs of the NSOs of the OIC Member States to be identified through the physical and virtual meeting rounds of a panel of experts in a structured, systematic, and interactive way.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Implementation of all cooperation and coordination programs	reports of States and organizations	Commitment to the implementation of cooperation programs
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
	1 - coordination in the field of statistical capacity building 2 - Coordination in the field of technical assistance (experts and consultants)	1 - Number of cooperation programs concluded 1 - Number of programs implemented 2 - number of organizations participating in the cooperation programs	reports by States and organizations
<b>Inputs/Activities</b>			
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	<b>Resources Required</b>		<b>Preconditions</b>
	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1- Configure a mechanism for effective coordination between national agencies and all regional and international organizations	Experts and advisers Financial funds Implementation during 2013-2017		Existence of executable and agreed program Non- commitment to the implementation of cooperation programs

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To coordinate statistical cooperation and collaboration among NSOs, OIC-StatCom, regional and international organisations	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
A strong leadership role was taken to promote close collaboration and cooperation among the OIC-StatCom, other relevant OIC bodies and relevant stakeholders by actively communicating the objectives of the Committee and identified needs of the OIC-StatCom members.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	1 - Leadership's ability to implement the programs and objectives of the cooperation coordination.	1 – reports of the Organization of Islamic Cooperation 2 - reports of other related bodies	consistency and harmony of proposed cooperation plans between member states and the Organization of Islamic Cooperation
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- regularity in the periodic meetings 2- Availability of reports and studies strengthening coordination and cooperation	1 - Number of coordination meetings that took place 2 - number of studies and reports that have been released and published 3 - Number of working visits that took place	reports of the Organization of Islamic Cooperation	-commitment of stakeholders to implement programs -Availability of required budgets in a timely manner
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1- periodic meetings 2 - exchange of working visits 3 - dissemination and exchange of periodic reports and studies	1 - material and human resources 2 - modernization and development of Electronic Publishing sites 3 - experts and advisers 4 - the time period 2013-2017		availability of budgets in required size and timely manner

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To coordinate statistical cooperation and collaboration among NSOs, OIC-StatCom, regional and international organisations	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The cooperation among OIC-StatCom and other national, regional, and international stakeholders was strengthened by establishing sustainable relationships through effective networking channels for supporting the trainings, and developing mobility programs. such as staff exchange (secondment) between NSOs and international organisations, study visits, etc.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Ability of the Organization of Islamic Cooperation and national statistical systems in the implementation of the exchanging experiences and mobility program	Statistical offices reports reports of the Organization of Islamic Cooperation	Commitment of stakeholders to implement programs Availability of required budgets in a timely manner
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1 - regular exchange of experts and staff 2 - regular working visits	1 - the number of experts and staff who have been exchanges 2 - Number of working visits	Reports the statistical offices Reports the Organization of Islamic Cooperation	commitment of related stakeholders in the implementation programs Availability of required budgets in a timely manner
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1 - exchange of experts and staff 2 - exchange of working visits 3 - dissemination and exchange of periodic reports and studies	1 - material and human resources 2 - experts and staff specialising in various statistical fields 3 - the time period 2013-2017		availability of budgets in required size and timely manner

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To coordinate statistical cooperation and collaboration among NSOs, OIC-StatCom, regional and international organisations	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The production of regional strategies by regional and international stakeholders was supported for the development of statistics similar to national strategies for development of statistics.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	1- all member states should have national strategies for development of statistics 2- Organization of Islamic Cooperation should have a statistical strategy	Member States' reports and reports of the organization	desire of the Organization of Islamic Cooperation and member states to possess a statistical strategies
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- design of a regional strategy for the Organization of Islamic Cooperation 2- take advantage of national strategies in the design of the regional strategy	1 - Number of ready national strategies 2 - number of experts in the field of statistical strategies	Reports the Organization of Islamic Cooperation and national statistical offices	willingness of different countries to possess national strategies for the development of statistics
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1 - Make sure that all member states have national strategies for the development of statistics 2 - Provide technical support to countries that do not have strategies for the development of statistics	1 - experts in the field of statistical strategies design 2- financial resources 3- during the 2013-2017		willingness of different countries to possess national strategies for the development of statistics

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop common methodologies for indicators specific to the OIC Member States	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Use guides and evidence standard in statistical studies	Statistical offices reports and reports of the organization	States' commitment to the outputs of expert committees
<b>Outcome</b>			
Harmonisation of concepts, classifications and methodologies used in performing statistical activities in OIC Member States was promoted to improve consistency in statistical systems.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	guides and evidence standard	Statistical offices reports and reports of the organization	States' commitment to the outputs of expert committees
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Prepare guides for concepts and definitions and methodologies Statistical evidence Classifications	Types and quantities of guides and evidence that has been designed	Reports of expert committees	States' commitment to the outputs of expert committees
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1 - meetings of experts in various statistical fields to discuss the standardization of concepts and classifications	Experts and Finance During 2013,		availability of funding

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop common methodologies for indicators specific to the OIC Member States	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
Priority areas specific to the OIC Member States were identified and conceptual and methodological background for the selected indicators were developed.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Common indicators	Statistical offices reports and reports of the organization	States' commitment to the standard indices
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
Preparation of common indicators Consensus on the methods of calculating indicators	The types and numbers of indicators Unity	National statistical offices reports	States' commitment to the standard indices
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Meetings of experts in the field of preparation and calculation of statistical indicators	Experts and Finance Through 2013		Availability of funding

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To develop common methodologies for indicators specific to the OIC Member States	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
A quality assurance framework for the NSOs of OIC Member States describing the tools and procedures put in place was developed to ensure that the statistics produced by the NSOs are of high quality with a focus on statistical processes and outputs.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Various indicators measuring quality	Statistical offices reports and reports of the organization	States' commitment to quality benchmarks
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1- Preparation of indicators to measure the quality 2- Consensus on the methods of calculating indicators	The types and numbers of indicators measuring quality	National Statistical offices reports	States' commitment to quality benchmarks
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
Meetings of experts in the field of data quality and standards used to measure the quality of the statistical work	Experts and Finance Through 2013		Availability of funding

<b>Narrative Summary</b>	<b>Objectively Verifiable Indicators</b>	<b>Means of Verification</b>	<b>Assumptions</b>
<b>Overall Objective</b>			
To accreditate statistical professionals	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
	Application of Job Description and hierarchy application to the Statistical professionals	Organization of Islamic Cooperation Reports and national statistical offices reports	Commitment of member states to apply the job description and hierarchy to the Statistical professionals
<b>Outcome</b>			
Conceptual and methodological background of the accreditation program for professional official statisticians working for organisations of the OIC Member States was developed.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	Adoption of Job Description and hierarchy application to the Statistical professionals	Reports of the Committee of Experts	Commitment of national statistical to adopt the outcomes of the Committee of Experts
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1- meetings of experts to develop a job description for the Statistical professionals 2 – Adoption of job hierarchy to the Statistical professionals 3 - improving material revenue to the Statistical professionals	1 - experts in the field of preparation the job descriptions and professional structures 2 - material resources 3 – during 2013		Availability of funding

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Assumptions
<b>Overall Objective</b>			
To accreditate statistical professionals	What are the measures to verify the extent to which the OIC-StatCom has achieved the Overall Objective? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Overall Objective? Please type below.	What are the events or conditions that must prevail in order to ensure the OIC-StatCom achieves the Overall Objective? Please type below.
<b>Outcome</b>			
The certification of expertise and knowledge under an official context for the professional conduct of statistical work of statistical specialists working for the organisations of the OIC Member States was encouraged.	What are the conditions that will indicate whether the OIC-StatCom has achieved or not the Outcome? Please type below.	What are the sources of data for verifying the objectively verifiable indicators for the Outcome? Please type below.	What are the events, conditions or decisions outside the control of the Executive Work Plan that must prevail in order for the OIC-StatCom attains the Outcome? Please type below.
	application of rules and the basis of a certificate of experience, knowledge and professional conduct based on fundamental principles of official statistics, and the experiences of other international organizations	national statistical offices reports	commitment of member states to apply the foundations and rules of certificate experience, knowledge and professional conduct
<b>Outputs/Results</b>			
What are the outputs that you think the OIC-StatCom must achieve as (a) necessary requirement/s to achieve the above outcome? Please type below.	What are the conditions that indicate the magnitude of outputs necessary and sufficient to achieve Outputs? Please specify the quality, quantity, time, location and target group of each Output that will indicate whether the OIC-StatCom have achieved or not the Outputs you stated. Please type below	What are the sources of data for verifying the objectively verifiable indicators for the Output/s? Please type below.	What are the events, conditions or decisions outside the control of Executive Work Plan necessary for the achievement of each Output? Please type below.
1 - the rules and the basis of a certificate of experience, knowledge and professional conduct based on fundamental principles of official statistics, and the experiences of other international organizations	1 - the number of meetings of the Committee of Experts 2 - Number of Entries rules, foundations certificate experience, knowledge and professional conduct	Reports of the Committee of Experts	commitment of member states to adopt the foundations and rules of certificate experience, knowledge and professional conduct
<b>Inputs/Activities</b>	<b>Resources Required</b>		<b>Preconditions</b>
What are the specific actions that the OIC-StatCom and its members must implement in order to produce the outputs you stated above? Please type below.	What are the materials, labour, services, other resources necessary to undertake and the time-span (when to start and how long it will take to complete; i.e, short, medium or long term) the Actions you stated? Please type below.		What are the events, conditions or decisions outside the control of the Executive Work Plan necessary for the successful execution of the planned actions? Please type below.
1 - committee of experts to determine the rules of experience certification, knowledge and professional conduct for statisticians	1 - relevant experts 2 - financial resources 3 - during 2013		provide the necessary funding

## 7.2 Aggregate Results for the Phase-II Survey

	SHORT TERM	MEDIUM TERM	LONG TERM	RESULT
<b>Statistical Capacity Development</b>				
1) Prepare an OIC-StatCom framework for supporting the NSS of the OIC Member States in accordance with their development priorities. This framework outlines the statistical capacity development priority areas by identifying the needs of the NSOs and professional skills essential for statistical information collection, collation, processing, and dissemination; and describes general strategies for carrying out effective programs;	100%	0%	0%	Short term
2) Develop a clear-structured governance mechanism based on a life-cycle approach for the statistical capacity development activities of OIC-StatCom;	29%	43%	29%	Medium term
3) Harmonize levels of statistical development of OIC Member States on the basis of Statistical Work Program to be prepared by considering priorities of the OIC policies and urgent needs of the NSOs;	0%	71%	29%	Medium term
4) Ameliorate the professional skills of the staff in ICT, modern management methods, statistical data collection, collation, processing and dissemination, and NSS management by organising training programs and constructing platforms for offering e-learning programs that are embedded in or offered as extensions of the statistical consultancy service programs to be carried out among the OIC-StatCom members;	29%	43%	29%	Medium term
5) Share “Lessons Learnt” and “Success Stories” regarding the experiences gained and challenges faced by the OIC-StatCom members through a virtual statistical system;	57%	29%	14%	Short term
6) Exchange knowledge on particular topics of interest, and new statistical fields and indicators through an academic journal that is under the guidance of an editorial committee formed of active researchers and practitioners in official statistics;	14%	86%	0%	Medium term
