## Appendix C. GLOSSARY OF TERMS

<b>Terminology used in the questionnaire and indicators</b>	
Beliefs about the risks of smoking	Respondents who believe that smoking causes serious and specific diseases, such as stroke, heart attack, lung cancer, bronchitis and stomach ulcer.
Active smokeless tobacco users	A person currently consuming any smokeless tobacco product on a daily basis or irregularly.
Active tobacco smoker	A person who currently smokes any tobacco product, daily or irregularly.
Daily smoker	A person who currently smokes every day any tobacco product.
Daily smokeless tobacco user	A person who is currently consuming smokeless tobacco product every day.
Ever smoked daily	A person who is or is not an active smoker. Includes "active daily smokers", "active occasional smokers who used to smoke daily" or "non-smokers who used to smoke on a daily basis."
Awareness about the dangers of smoking	Respondents who paid attention to information about the risks of smoking cigarettes or smokeless tobacco, or calling for the cessation of tobacco use within 30 days before the survey: in newspapers/magazines, on television, in stores and/or elsewhere.
Exposure to second-hand smoke at home	Percentage of respondents who report that smoking occurs inside their home (every day, week, and month) over the past 30 days. Location does not include an external location, such as a balcony, garden, etc.
Exposure to second-hand smoke at work	Percentage of workers who were exposed to tobacco smoke at work in the past 30 days, among respondents who work outside the home, as a rule, indoor workers, or people working both indoors and outdoors.
Awareness of specific types of cigarette promotions and advertisements	Respondents paid attention to advertising or billboards devoted to cigarettes or smokeless tobacco within 30 days before the survey: in stores where cigarettes are sold, on television, on radio, on billboards, in newspapers/magazines, on the Internet and/or elsewhere. Respondents who paid attention to a sport or sporting event, which is associated with brands/manufacturers of cigarettes or brands/manufacturers of smokeless tobacco. Respondents who noticed [free samples of cigarettes, cigarettes at sales prices, coupons for cigarettes, free gifts or discounts on other products when buying cigarettes, clothing or other items with a cigarette brand name or logo, cigarette promotions in the mail.
Former daily smokers	A person who currently does not smoke, but had previously smoked daily for a month or longer.
Former daily smokeless tobacco users	A person who is not currently consuming smokeless tobacco products, but used to consume smokeless tobacco on a daily basis for a month or longer.
Medical practitioner (MP)	Medical practitioner covers a variety of medical specialties, such as doctor, nurse, pharmacist, health organizer, etc.
Interest in quitting use of smokeless tobacco	Active users of smokeless tobacco are planning or thinking about how to give up its consumption within the next month, year, or ever.
Interest to quit smoking	Active tobacco smokers who are planning or thinking about how to stop smoking within the next month, year, or ever.
Nonsmoker	A person who doesn't currently smoke.
Or, do not consume smokeless tobacco products	A person who does not currently uses smokeless tobacco.
Occasional smoker	A person who currently smokes not on a daily basis.
Irregular user of smokeless tobacco products	A person who currently consume the smokeless tobacco but not every day.
Cigarettes	Cardboard tube with a cigarette tip.
Public places	Include government agencies, medical facilities, restaurants, bars/night clubs, cafes/coffee shops, public transport, schools, colleges/universities and private workplaces.
Smoking quit attempt	Active tobacco smokers and users of smokeless tobacco, who tried to quit during the past 12 months.
The proportion of people quit smoking (among daily smokers)	The number of people ever smoked on a daily basis, who managed to quit ( "former daily smoker" / "ever smoked every day")
Passive smoking	Inhalation of tobacco smoke that others smoke.

<p>Status of the smokeless tobacco user</p>	<p>It includes three categories: 1) "Active / daily smokeless tobacco user" - a person consumes at least one product with smokeless tobacco every day, for a month or longer.  2) "Active / irregular smokeless tobacco user" – a person consuming smokeless tobacco, not every day (provided that he/she consumed before / never consume such tobacco on a daily basis).  3)"Nonsmoker"– a person who does not consume smokeless tobacco. Includes "former daily smokeless tobacco user" and "a person who never been a smokeless tobacco user."</p>
<p>Status of a smoker</p>	<p>It includes three categories: 1) "Active / daily smoker" - a person consumes at least one tobacco product every day, for a month or longer.  2) "Active/irregular smoker" – a person consuming tobacco products, not every day (provided that he/she consumed before / never consume tobacco on a daily basis).  3)"Nonsmoker"– a person who does not smoke tobacco products. Includes "former daily smoker "and "a person who never been a smoker."</p>
<p>Tobacco products</p>	<p>Two types of tobacco products:  1) Smoking tobacco includes cigarettes industrial production, roll-ups stuffed with tobacco pipes, cigars/cigarillos, cigarettes, hookah and other tobacco products referred to smoking.  2) Smokeless tobacco includes FNL, snus (oral tobacco) chewing tobacco (oral chewing tobacco) and other products referred to smokeless tobacco.</p>
