2<sup>nd</sup> International +  
6<sup>th</sup> National | Conference on  
**MANAGEMENT OF TECHNOLOGY**  
16-17 Dec. 2012  
IRIB International  
Conference Centre  
TEHRAN - IRAN

## INTRODUCTION

The fast-pace-growing TECHNOLOGY plays an important role in human's life. As the competition between firms has been replaced from competition between countries, Management of Technology achieves a vital role in this competitive world.

Iranian Association for Management of Technology (IRAMOT) attempts to notify policy makers and executives of the important role of MOT and diffuse its knowledge in the country.

Considering the necessity of identifying and understanding changes of technology management at global level and employing it for developing science and technology, IRAMOT will hold the second International Conference on Management of Technology with the motto of "The Role of Management of Technology in National Competitiveness and Social Welfare" on December 2012.

We are honored that scholars, theoreticians and practitioners of this area will participate with the cooperation of national and international institutions.

INTRODUCTION

IRAMOT 2012  
Executive committee
